Increase Aloha Aina for 2006 ?

[story and photos by George Peabody]

The human impact on Molokai's environment, the shoreline, beaches, reefs, mountains and streams has increased so much in the past ten years that many long time residents are beginning to see the need for renewed efforts to respect Nature and protect the land and sea from destructive practices.

Last week, this sail boat went aground just off shore at Moanui in east Molokai, fronting the hillside construction by attorney Gallagher that resulted in a mudslide and pollution of the reef, and a lawsuit regarding the environmental destruction.

It is fortunate that no fuel was leaked in this boat case, but the Hanapi Ohana is concerned about an increase in illegal "semi-permanent" boat anchoring that increases the probability of environmental pollution of the near shore reef where they gather much of their food. "There is no room for error," said Alapai. Human impacts can drastically effect the limited and fragil subsistence food sources upon which many people depend. The Hanapi's have also noticed several jet ski operators recently in their area racing back and forth causing noise and fuel pollution.

The State Department of Land and Natural Resources has received several such reports, asked to document the facts and take appropriate enforcement action regarding possible violation of mooring regulations, jet ski operations, and illegal beach fires.

Photos below show an illegal open burning fire on Waialua Beach being extinguished by MFD firefighters Kalipi and Schonely on December 24, 2005; and Keoki Snakenberg, father of several of the keiki responsible for the fire on the beach watched

Solar Power Chain Saw Recycles Trees

As these two photos show before and after, the large pile of tree branches and stumps was cleared away into recycled mulch and compost. Using two solar electric panels to generate electricity from the sun into the two 12-V batteries and then converted into 750 watts of 120-volt electricity to operate the powerful little 6-inch electric chain saw, eastend resident George Peabody and his wife Susan got all the logs, big and small, cut and and all the chips and branches recycled in one day.

Pono Solar Electric Power is right: Solar offers effective solutions for 2006 with clean running electric tools, including chain saws, weed whackers, lawn mowers, computers, TV, lights, refers, freezers, fans, and cooking appliances. Happy New Year!

MFD pour water on the smoldering logs. He told MFD that the kids had not put the fire out before leaving the scene. MPD officer Caprida, father to the Caprida keiki with Snakenbergs, responded to record the complaint filed by George Peabody.

MFD reported that Snackenbergs was advised of the County open burning ban that prohibits open burning.

DLNR rules also prohibit all fires on beaches: When no longer needed, the fire shall be completely extinguished. No person shall leave a fire unattended.

PGMA declares 2006 as Hawaii Filipino Centennial Year in RP

President Gloria Macapagal-Arroyo has declared the incoming year 2006 as Hawaii Filipino Centennial Year in the Philippines in commemoration of Filipino immigration to the American island state.

The President, in Proclamation No. 954 which she signed last Dec. 10, called on all government agencies and the citizenry "to extend the heartfelt appreciation of a grateful Filipino nation to the Filipinos in Hawaii for their various contributions and assistance to the Philippines" by joining them in the commemoration of the event.

It will be recalled that Filipino sakadas were instrumental in the growth of the plantation industry and the labor movement in Hawaii, with the first 15 Filipino sakadas arriving in Hawaii on Dec. 20, 1906 aboard the S.S. Doric.

The recruitment of Filipinos to Hawaii continued until 1946 with the last group of sakadas arriving aboard the S.S. Maunawili. Filipino immigration to Hawaii has continued to this day, with Filipinos considered as the fastest growing immigrant group in the island state.

Proclamation 954 cited the Filipinos' contribution to the social, cultural, political and economic life in Hawaii, in the process supporting and contributing to the development of the Philippines through commercial, educational, socio-economic and cultural exchanges. "The Philippines and Hawaii have always maintained close ties, particularly through various sister-city and sister-state and province relationships," the proclamation said.

Molokai's Forum For Freedom Individual's Sovereignty vs Slavery

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God." —James Madison

Bill of Rights 2nd Amendment:

"A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Wake up militia! Use it , or lose it ! Got your gun, yet?

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor." (Decl. of Indep.)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

Police State Of America 2006?

Obvious signs that a Police State is attempting the overthrow of America is that law enforcers of the federal government, and local cops all across our land have been in training as paramilitary units, with cops killing dozens, perhaps hundreds of innocent people.

These fascist law enforcers have brutalized hundreds of families that did nothing more than happen to be on the highway picked out to be terrorized by these homegrown and trained terrorists.

Hundreds of people have additionally been brutalized and terrorized by their homes being surrounded by armed and ready to shoot enforcers in full black or camouflage body armor, with their Gestapo helmets on, and their faces covered so that one could only see in their eyes the hatred and resolve to kill or beat brutally for non-compliance.

Doors are being knocked down on people,s homes, people who have committed no crime, nor with a bona fide indictment against them by a human being resulting in a valid search warrant, in violation of both the 4th and 5th Amendments.

These government-backed terrorists walk our streets, travel on our highways, and stalk people all across our land ignoring human decency and human rights.

Innocent people are thrown in jail everyday by these traitorous denizens we call cops or agents arresting them, shackling innocent people as if they are some crazed anti-human psychopath, and hauled off to jail. Such are completely against the laws of God and the supreme Law of the Land.

The enforcers engaging in such practices do what they are told while never questioning the validity of such acts. It is as if their job is anything any superior tells them just doing my job, the favorite cop-out.

TV shows, such as the damnable COPS reveal the truth about the Police State: against human liberty. But the truth sails right over the heads of the American people watching such TV

shows, with many still believing the job of cops is to serve and protect even after seeing the brutal treatment of people protesting violence or just watching.

The intent of the Police State is to serve and protect the State agency that created them and gives or allows them abusive power.

Raids using 20 to 50 or more federal and local agents of tyranny for the State knock down doors and enter homes unlawfully and illegally ready to shoot to kill. Sometimes it is just so the IRS can obtain documents it has no lawful business demanding, or some bogus tip. The FBI, IRS, and BATF and even local police now forcibly break into homes, when the fact is that all one of them has to do is knock on the door politely, explain why he is there, and the people either agree to them entering or not.

Under law of the land [Constitution] the feds nor local cops and other enforces have no authority over people lacking a bona fide 5th Amendment indictment, no matter how many justices of the US, State, and local territorial courts say different. The so-called "judges" do not have the authority to make law, nor do they have the interests of the people, justice, and redress for true crimes at heart.

They have at heart the expansion of the government's hidden agenda, an agenda that is slowly being exposed as conspiracy fact, not fiction. Most of them are self-serving traitors that should be on trial and imprisoned or hung for their many acts of treason against the people.

Add in the many cover-ups by the US Government that have been exposed, including WW II, Korea, Vietnam, the first Bush war for profit Gulf War, Oklahoma and WTC and Pentagon bombings by Bush et al, and the criminal attacks by Bush as his backers on the Afghanistan and Iraq people, with the US Government admitting to using the CIA hit teams to take out foreign leadership.

Viticimized also are the many whistle-blowers and others who have attempted to tell the truth, or have told the truth, and the sudden questionable deaths of these people.

Think of how many in government, or formerly in government, attempt to tell the truth only to be ridiculed by those that would be most harmed by the information ^ the dirty lying officials that created the scenarios against humans and peace. Government agents' lies now have Americans in other lands, killing innocent people, and our own. Billions of dollars have been spent in the process of destroying billions of dollars of property of other peoples, and ruining the lives of untold millions of people.

We are forced to support the crimes of government by taxation. Nearly every tax and fee imaginable are actually against the rights of the people, and prohibited by the Constitution for the united States of America.

The Federal Reserve is a complete fraud that has stolen all money and property from the American people because the FRN dollar is worthless nothing but hot air backs it. It cannot be used to pay a debt, only to discharge a debt. Thus, whatever you buy with FRN dollars is not yours and never will be. You have never in fact paid the debt.

While these attacks and mass murdering of thousands of other people in other countries have been taking place under the terribly thin veil of "fighting terrorism", our borders are left open. How can anyone honestly believe we are engaged in a war against terrorism while our borders are left open?

Terrorism is in USA as Judges openly deny people the people their rights, and such denial is openly admitted to in mainstream media. Terrorist's tactics are used to enforce unconstitutional acts by all of government.

Many people have been convicted of manufactured "crimes", which are not even law applying to the people such as IRS, gun laws, real property taxes, medical marijuana. No defense is allowed, and the utterance of constitutionally secured rights is considered "contempt of court."

Hopefully, my readers have gotten the point: American has become a police state, and it is now critical, vital, that we, the Militia, support and defend the Constitution, or we will be forced into permanent slavery with no rights at all.

WE HAVE BEEN AND ARE BEING TESTED TO ACCEPT THE POLICE STATE.

The huge increases in the violence by government in their tests has revealed to those creating the New World Order that the American people in general still do not care enough for individual Sovereignty, liberty and freedom, and will not stand up against them. So far, they are right. Americans have shown they are clueless re: Police State.

There are a few Americans who do confront officials publicly, by attempting to go through the so-called system of justice trying to get redress against officials and agents of the officials. We should all support these few brave souls, now rotting in jails across America, who are fed up to the hilt with the nearly 100 percent unlawful and treasonous acts by officials.

However, the majority of Americans sits back and lets every treasonous act happen, and do nothing about it even after it has happened. Terrorism is used by the Police State to force compliance to "laws" that do not apply to free Sovereign Citizens.

Yes, we have been tested, and the testing shows that the government can proceed with every plan it has of taking over the American people completely, with complete freedom for them to incarcerate without cause, execute without cause, torture at their will, and go back for more when those they "disappear" run low. They have a steady source of slave labor in slave labor camps, such as prisoners now being used for corporations to make their products.

No man or woman or child is safe from the government. This is all going on, while the American people sit back and cheer Bush, Rumsfeld, Cheney for protecting them from harm, while the government does the most harming of our people and creates world-wide terrorism.

Never in history have the American people been more insecure than right now. **"Rebellion against Tyrants is Obedience to God."** ~ Thomas Jefferson

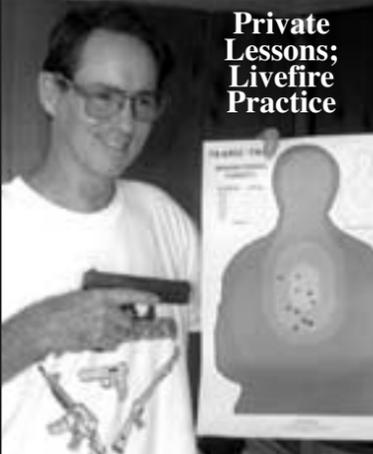

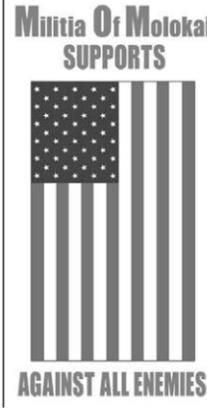

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights! Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man. **Wake up ! Enforce the Bill of Rights !**
