"A bill of rights is what the people are entitled to against every government on earth, general or particular; and what no just government should refuse, or rest on inferences." — Thomas Jefferson to James Madison, 1787.

"'O ka palapala o na pono pilikino o ke kanaka, he kuleana no keia na na kanaka a pau, e ho'omalua ana ia lakou mai kela aupuni keia aupuni ma ka honua nei, ma ke 'ano nui a ma ke 'ano ho'okahi paha; a he mea no ho'i keia he pono 'ole ke aupuni pono e ho'ole, a e kau paha ma ke kuhi wale 'ana." — Thomas Jefferson ia James Madison, 1787.

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

**Applications Being Accepted for County
Boards and Commissions**

WAILUKU- Applications are now being accepted for seats on nearly all Maui County boards and commissions, Mayor Charmaine Tavares announced today. While these are voluntary positions, individuals serving on various boards and commissions may hear public testimony, review policies and standards, and make recommendations.

"Members of our boards and commissions help make decisions that affect our County, including the neighborhoods they live in," Mayor Tavares noted. "We depend on their willingness to care enough about their community by offering their personal and career experiences to balance out decision-making in our local government. The 287 individuals that sit on our boards and commissions reflect the diversity of our citizens and are part of the checks and balances of government. While Planning, Cultural Resources and Cost of Government are some of the higher-profile commissions, other less-known commissions have significant impacts as well, like Street Naming, which helps create a sense of place and identity for new neighborhoods, and the Street Lighting commission, which addresses public safety and environmental concerns."

People can contribute to the team efforts put forth by these groups by drawing upon their own life and career experiences, as well as specific technical and trade knowledge."

To download an application, or for more information on the various Maui County boards and commissions and related requirements, visit www.mauicounty.gov and click on "Boards and Commissions."

Applications are also available at the Council Services Offices in Hana, Lanai and Molokai, at the Information Booth in the lobby of the County building, and at the Mayor's Office, located on the 9th floor.

Applications should be received at the Mayor's Office no later than Friday, January 11, 2008. Applications may be mailed to: Mayor Charmaine Tavares, County of Maui, 200 South High Street, Wailuku, HI 96793, fax (808) 270-7870.

A total of 58 vacancies will be available as of March 31, 2008

Impeach Linda Lingle re: Superferry

A The facts and the law support impeachment. The Governor did instigate a plan to violate Hawaii law by encouraging and assisting Superferry to continue operating when the law clearly called for Superferry to stop. The Governor did bring all Federal, State, and law enforcement that she could into her illegal plan. That plan could have resulted in serious injuries and even death being inflicted on people who were doing the job of enforcing the law that the Governor had abandoned. The case for impeachment is air tight.

Big Island attorney Lanny Sinkin states that Lingle abused her authority by calling upon federal, state and local law enforcement agencies "to further an illegal enterprise." Lingle spent millions of taxpayer dollars in putting the Superferry into operation, and the U.S. Coast Guard "responded to the governor's actions by declaring a security zone in the waters and on the land surrounding Nawiliwili Harbor, and imposed heavy fines and prison time for those arrested protesting.

When people jumped in Nawiliwili Harbor on Aug. 26 and Aug. 27 to prevent the Superferry from entering it, Sinkin said, they were trying to uphold the law that required an environmental assessment be conducted before the ferry can begin operations. That thought process was upheld recently in court when a Maui judge said an environmental assessment is indeed necessary, he said, and that Lingle's "pursuit of such law enforcement actions represented an abuse of her authority to further an illegal enterprise" and that "the governor's formation of the Unified Command undermined the legitimacy of every law enforcement agency involved."

Lingle's intention to return the Superferry to Nawiliwili Harbor threatens to create legal liability for every law enforcement officer acting in concert with the Lingle's illegal and fascist police state plan. War on American Citizens is Treason.

DEA Raids Investigated; Gun Free Zone are Killing Fields

Ed Kubo
US Attorney

editorial by George Peabody for The MAN

Hawaii US Attorney drug warrior Ed Kubo, MPD Chief Thomas Phillips et al must be included in investigation by Congressional committee of raid tactics by DEA.

Last week, Congressional House Judiciary Committee Chair, Rep. Conyers pledged to investigate the DEA's ongoing tactics that have resulted in death, serious injury, property destruction, prisons full of non violent drug users, and they threaten the safety and security of state licensed medical marijuana patients, providers, and innocent landlords. Conyers' commitment to question DEA attacks on medical marijuana states has brought holiday cheer to medical marijuana patients.

Hawaii U.S. Attorney Ed Kubo visited Molokai recently without notifying The MAN reporters who would have pinned him down in public on the fraud and criminality of his actions promoting the ultra vires Drug War. But, it was reported he said "The deterioration of the soul leads to drug abuse," and Kubo did not explain how moral weakness justifies criminal prosecutions and prison for the rest of one's life, family destruction and being terrorized, injured or murdered in a DEA-MPD drug raid, college loan rejects and criminal records, and the resulting underground drug trade by criminally corrupt police and prison guards and attorneys. But, Kubo expanded his message of drug war terror, proclaiming "We are going to spread our wings; we are going to do enforcement on all of the islands." [Sounds like the Devil Himself speaking!]

Since the DEA began raiding state licensed medical cannabis dispensing offices in 2002, Congress has never held a hearing to investigate the goal of these raids, how much these raids are costing taxpayers in both dollars and precious resources, or what impact these raids are having on patients and the state and local governments attempting to regulate the distribution of medical marijuana in accordance with state law.

A Congressional House oversight investigation is an important and significant opportunity for Constitutional Patriots and the medical marijuana community in Hawaii and nationwide to expose the DEA criminals and their leading U.S. Attorney Generals such as Linda Lingle and her fascist drug warrior US attorney Ed Kubo.

DEA/Kubo and MPD's impromptu armed dawn raids on Molokai residences based on the testimony of shadowy neighborhood informants wouldn't look out of place in Communist East Germany but we are told by police and politicians that it is the new Amerika, the new Hawaii, and that we should shut up and accept it, and he will give you money to make it easier.

U.S. Attorney Kubo, facing termination of his position as Hawaii's top federal prosecutor at the end of President Bush's term next year, is on a whirlwind tour of the islands at Taxpayer expense like a future political candidate for Congress, expounding on his ability to bring federal dollars to support more DEA drug war terrorism. Included in his visit to Molokai was a closed to reporters meeting with Molokai Police to "learn more about crimes occurring on the island" where US Attorney Ed Kubo has absolutely no jurisdiction. Kubo is conspiring with MPD chief Thomas Phillips and Molokai DARE officer Lonnie Caparida, Sgt. Tim Meyers et al, with millions of dollars for cooperating with feds to terrorize Hawaii residents, to steal private property in under the guise of the War on Drugs, which is really a War on Americans: its Treason.

Kubo declared that Hawaii is number ONE in the nation for drug use. Kubo knows that as long as that perception is maintained, federal funding keeps rolling in to support more of Lingle's oppressive Police State and his DEA goon squads consorting with Maui Police, ultra vires against the Constitution for the united States of America, and the Hawaii Constitution.

But US Attorney Ed Kubo, Caprida, Meyer, Phillips and MPDet al ignore the truth and facts to rationalize their unlawful treasonous actions: 30 years and billions of dollars for the War on Drugs and it is a clear failure that has caused more harm in deaths, broken families, property loss, and filled prisons with mostly non violent drug users; the main beneficiaries of the War on Drugs are police and prosecutors, politicians, and the Prison Industry; DEA/Police raids aggravate the problems associated with marijuana production and research, driving up prices and attracting criminal elements and their violence and making the medicine difficult to obtain by licensed patients; Ed Kubo/Lingle/MPD are criminals for violating the Constitution for the united States of America with their drug war and Police State tactics which are obviously intended to make people afraid, to convince people to give up their rights, to force people to submit to an external authority, and to punish "non-believers."

I will paraphrase US Attorney Kubo: The deterioration of the soul leads to a Drug Warrior Fascist mindset and criminal behavior that is TREASON.

STOP THE DRUG WAR—Its WORSE than DRUGS!

SUPPORT the Hinchey Medical Marijuana Amendment

The US Supreme Court upheld the DEA ban on medical use of marijuana. While this ruling did not change law in Hawaii that provides medical marijuana protections, US Attorney Ed Kubo and his DEA goons act like they have the consent of the governed to use Taxpayers' money to undermine the will of the voters, and to violate the rights of American Citizens with War on Drugs.

I think that is wrong, and I urge you to take an important opportunity to support the Hinchey amendment at Congress in the debate over the Science-State-Justice-Commerce Appropriations bill. I would prohibit the federal government from arresting, raiding or prosecuting patients who are abiding by state medical marijuana laws.

Medical marijuana patients and their providers should not have to live in fear that police will break down their doors and take them to jail because of their choice of medicine, certainly not in Hawaii whose voters and legislators made laws to protect them. That is a horrendous state of affairs, and it is irrational to divert federal money to attacking patients. The MAN

Crime Reduction vs Gun Free Zones

The horrible tragedy at the Westroads Mall in Omaha, Neb. earlier this month received a lot of media attention after eight people were killed, and five were wounded. An incredible 2,794 news stories worldwide for the day. From India and Taiwan to Britain and Austria, there are probably few people in the world who haven't heard about this tragedy.

But despite the massive news coverage, none of the media coverage mentioned this central fact: This was another attack in a GUN-FREE ZONE.

With all the reporters who appear at these crime scenes and seemingly interview virtually everyone there, why didn't one mention the signs that ban guns from the premises?

Nebraska allows people to carry concealed handguns, but it allows property owners, such as the Westroads Mall, to post signs banning gun owners from carrying guns on their shopping mall property, thus creating a concentration of unarmed defenseless people at the Mall. Possibly the ban there was even more noteworthy because the off-duty police officer who stopped the attack had violated the ban by taking his gun in with him when he went shopping.

Yet even then, the off duty officer was at the opposite end and on a different floor of the mall when the shooting began. By the time he became aware of the shooting and managed to track down and confront the killer, three minutes had elapsed, and several people were already shot by the gunman.

When will part of the media coverage on these multiple-victim public shootings be that guns were banned where the attack occurred? While the media has begun to cover demands for gun rights by almost 8,000 college students across the country who protested gun-free zones on their campuses after they were attacked by criminals with guns, the media haven't started mentioning the rules prohibiting guns for law abiding students where these attacks occurred.

The news stories carry detailed information on the weapon used and the number of ammunition clips. But if these aspects of the story are deemed important for understanding what happened, why isn't it also important that the attack occurred where guns were banned? Isn't it important to know why all the victims were disarmed? Criminals love gun free zones.

Dylan Klebold, one of the two Columbine killers, was opposed Colorado legislation that would have allowed citizens to carry a concealed handgun. Klebold strongly opposed the legislation and openly talked about it.

The bill being debated would have allowed permitted guns to be carried on school property. Is it just a coincidence that he attacked the Columbine High School the very day the legislature was scheduled to vote on that bill?

Despite the lack of news coverage, people are beginning to notice what research has shown for years: Multiple-victim public shootings occur in places where guns already are banned. Forty states have broad right-to-carry laws, but even within these states it is the "gun-free zones," where the attacks happen: Virginia Tech saw 32 murdered earlier this year; the Columbine High School shooting left 13 murdered in 1999; Luby's Cafeteria in Killeen, Texas, had 23 who were fatally shot by a deranged man in 1991; and a McDonald's in Southern California had 21 people shot dead by an unemployed security guard in 1984. All these attacks happened in gun-free zones.

In recent years, similar attacks have occurred across the world, including in Australia, France, Germany and Britain. Do all these countries lack enough gun-control laws? Hardly. They have virtually banned all private ownership of guns, thus creating nationwide gun free zones where only criminals have guns.

Yet, every year, there are plenty of cases in USA where gun toting law abiding Citizens stop what would have been multiple victim shootings, but they rarely receive any news coverage. But here is one that did get good coverage: Jeanne Assam, an armed private citizen is.

HONORED for SHOOTING Criminal Gunman at Church

For her remarkable display of heroism and courage under fire, the Second Amendment Foundation announced today that it will recognize Jeanne Assam, who confronted a gunman on Dec. 9 at the New Life Church shooting in Colorado Springs, with the Eleanor Roosevelt Award.

Jeanne Assam, an armed private citizen who volunteered to provide security at the New Life Church, was suddenly faced with a deadly emergency and without hesitation, disregarding her own safety, she rose to that challenge.

By confronting a killer, Assam undoubtedly saved many lives. Jeanne Assam did an incredibly brave thing under circumstances that could easily be described as above and beyond the call. Every day in this country, armed private citizens defend themselves or others, frequently preventing or stopping crimes. Their actions go largely unrecognized and more frequently ignored by the press and public officials who would rather suppress the notion that Americans can fight back.

The law-abiding, not criminals, are obeying the rules. Disarming the victims for gun free zones means that the killers have less to fear. The longer it takes for someone to arrive on the scene with a gun, the more people who will be harmed by such an attack.

Most people understand that guns deter criminals. If a killer were stalking your family, would you feel safer putting a sign out front announcing, "This Home Is a Gun-Free Zone"? That's what the Westroads Mall did.

Nebraska Gov. Dave Heineman finally saw the light and signed Nebraska's new concealed weapon law to allow Nebraskans to carry handguns. Although he doesn't personally want to carry a gun, Heineman said the new law is a victory for the right to bear arms. He said it will benefit Nebraskans.

"To my friends and neighbors who disagree with the signing of this bill, consider for a moment the cold hard truth," Heineman said. "Criminals already carry guns, and they already do it illegally."
