911 Proved Beyond Doubt

The US Government was informing other governments that we would be at war in Afghanistan, no later than October! How lucky is it that just when they are planning to invade Afghanistan, for the express purpose of removing that government, a convenient "terrorist" attack occurs to anger Americans into support for an invasion?

Albert Turi, the Chief of Safety for the New York City Fire Department, reported not only that there were numerous secondary explosions within the towers but that there was also a bomb on one or both of the planes that crashed into the towers.

There has not been a single piece of evidence presented to the public that corroborates the official government version of the most devastating attack in our history. For more than four years, scores of credible experts have challenged the explanations offered by the Bush administration, and yet not a shred of evidence has been offered by the US government to support the official version of events of 9-11-01.

Even more absurd is that fact that both the American government and the complicit sycophant media have dealt with every challenge to their 9/11 explanations in two ways: they either totally ignore them or dismiss them out of hand as ridiculous conspiracy theories. Most of the well-researched and revealing findings by independent investigators are unknown to the vast majority of Americans.

The truth is this: the destruction of the World Trade Center was an inside job, orchestrated by terrorists within our own government. Controlled demolition is now a fact, not a theory.

In two speeches to overflow crowds in New York last weekend, David Ray Griffin argued that recently revealed evidence seals the case that the Twin Towers and WTC-7 were destroyed by controlled demolition with explosives. His presentation went straight to the core of one of the most powerful indictments of the official story, the collapse of the towers and WTC 7.

Dr. Griffin included excerpts from the firemen's tapes which were recently released as a result of a prolonged court battle led by victim's families represented by attorney Norman Siegel and reported in the NY Times. He also included statements by many witnesses. These sources gave ample testimony giving evidence of explosions going off in the buildings. A 12 minute film was shown for the audiences, who saw for themselves the undeniable evidence for controlled demolition.

Dr. Griffin listed ten characteristics of the collapses which all indicate that the buildings did not fall due to being struck by planes or the ensuing fires. He explained the buildings fell suddenly without any indication of collapse. They fell straight into their own footprint at free-fall speed, meeting virtually no resistance as they fell—a physical impossibility unless all vertical support was being progressively removed by explosives severing the core columns. The towers were built to withstand the impact of a Boeing 707 and 160 mile per hour winds, and nothing about the plane crashes or ensuing fires gave any indication of causing the kind of damage that would be necessary to trigger even a partial or progressive collapse, much less the shredding of the buildings into dust and fragments that could drop at free-fall speed. The massive core columns—the most significant structural feature of the buildings, whose very existence is denied in the official 9/11 Commission Report—were severed into uniform 30 foot sections, just right for the 30-foot trucks used to remove them quickly before a real investigation could transpire.

There was a volcanic-like dust cloud from the concrete being pulverized, and no physical mechanism other than explosives can begin to explain how so much of the buildings' concrete was rendered into extremely fine dust. The debris was ejected horizontally several hundred feet in huge fan shaped plumes stretching in all directions, with telltale "squibs" following the path of the explosives downward. These are all facts that have been avoided by mainstream media. Again, these are characteristics of the kind of controlled demolitions that news people and firefighters were describing on the morning of 9/11. Those multiple first-person descriptions of controlled demolition were hidden away for almost four years by the City of New York until a lawsuit finally forced the city to release them. Dr. Griffin's study of these accounts has led him beyond his earlier questioning of the official story of the collapses, to his above-quoted conclusion: The destruction of the three WTC buildings with explosives by US government terrorists is no longer a hypothesis, but a fact that has been proved beyond a reasonable doubt.

As for the general public, polls have shown that half of New Yorkers (Zogby, August 2004) agree that US leaders conspired to murder 3,000 Americans on 9/11/01 to create support for attacks on Afghanistan and Iraq.

"The evidence for this conclusion (that 9/11 was an inside job) has thus far been largely ignored by the mainstream press, perhaps under the guise of obeying President Bush's advice not to tolerate "outrageous conspiracy theories." We have seen, however, that it is the Bush administration's conspiracy theory that is the outrageous one, because it is violently contradicted by numerous facts, including some basic laws of physics.

The mainstream press has not pointed out these contradictions, as a recent letter to the Los Angeles Times said: "The number of contradictions in the official version of . . . 9/11 is so overwhelming that . . . it simply cannot be believed. Yet . . . the official version cannot be abandoned because the implication of rejecting it is far too disturbing: that we are subject to a government conspiracy, that revealing it would be so disturbing to the American psyche, the American form of government, and global stability that it is better to pretend to believe the official version. ["Deep Kimchee!"—MAN]

Dr. Sandra Brazzel, Desiree Pule, Grace Mokiao, Annette Tancayo, Radka, Jeanette Bince were "In the Pink" at last Friday's October is Breast Health Awareness event.

Not pictured Dr. William Thomas and Enoke Naho'opii. (photos by S. Peabody)

At MGH -- "We're going pink!"

Staff at the Molokai General Hospital's Rural Health Clinic, including physicians, nurses and support staff offer Outpatient Chemotherapy and Cancer Support. On Friday, in celebration of Breast Health Month, the staff offered several hands on learning activities and packets of valuable information about mammograms and breast health. The "make and take" ipu key chain Desiree Pule offered is a reminder and value of early detection by mammograms. Jeanette Bince, the Outpatient Oncology and Diabetes Management Nurse and Enoke Naho'opii offered information about diets rich in vegetables, fruit and grains.

Also answering questions about mammograms and Breast Self Examinations (BSE) and using visual and tactile models (pictured at left in photo) De Edda McLean, certified nurse midwife and Grace Mokiao also gave an informative "test"-- "Five Questions to Answer About Breast Cancer." Do you know? What is a mammogram? What are warning signs? At what age should you start performing breast self examination? Can anyone get breast cancer? Does diet play a role in breast cancer?

And to the statement made by many women that the procedure for a mammogram is painful, Radiology Technician Donna Hoke (pictured at right above) tells a story. Have your doctor refer you for a mammogram at the new X-ray department at MGH and hear her story that can save your life. Found in its earliest stages, the chances for successful treatment and survival longer than 5 years is greatest. [Continued page 2]

NOTICE OF PUBLIC HEARING MOLOKAI PLANNING COMMISSION

The Molokai Planning Commission for the County of Maui hereby gives notice that it will conduct a hearing on November 23, 2005, commencing at 1:00 p.m., or as soon thereafter as is practicable in the Meeting Hall, Mitchell Pauole Center, Kaunakakai, Molokai, on the following:

SPECIAL MANAGEMENT AREA USE PERMIT

1. _____MR. LUIGI MANERA of ARCHITECTURAL DRAFTING SERVICES requesting a Special Management Area Use Permit for the Take's Variety Store project consisting of a new building w. parking and loading at TMK: 5-3-002: 079, Kaunakakai, Island of Molokai. (SM1 2005/0012)

STATE LAND USE COMMISSION SPECIAL USE PERMIT

2. _____MOLOKAI HUMANE SOCIETY requesting a State Land Use Commission Special Use Permit for the proposed animal shelter, the development of a 1,100 square foot single story building to shelter and care for animals and related site improvements including a driveway, septic tank, and leach field and landscaping in the State Agricultural District at TMK: 5-7-011: portion of 013, Ualapue, Island of Molokai. (SUP2 2005/0007)

The subject public hearing will be conducted in accordance with the Hawaii Revised Statutes, the Maui County Code, and the Rules of the Molokai Planning Commission. Information pertaining to the subject application are on file at the Maui County Department of Planning, 250 South High Street, Wailuku, Maui; the Office of the County Administrator, Mitchell Pauole Center, Kaunakakai, Molokai; and the Molokai Public Library, Kaunakakai, Molokai.

All testimony regarding the subject application may be filed prior to the date of the hearing by providing 15 copies of said written testimony to the Department of Planning or may be presented at the time of the hearing.

Those interested persons requesting accommodation due to disabilities, please call the Department of Planning at 270-7735 or 1-800-272-0117 (Molokai) or 1-800-272-0125 (Lanai) or notify the Maui County Department of Planning in writing at 250 S. High Street, Wailuku, Maui, Hawaii 96793 at least six (6) days before the scheduled meeting.

New CD Release:

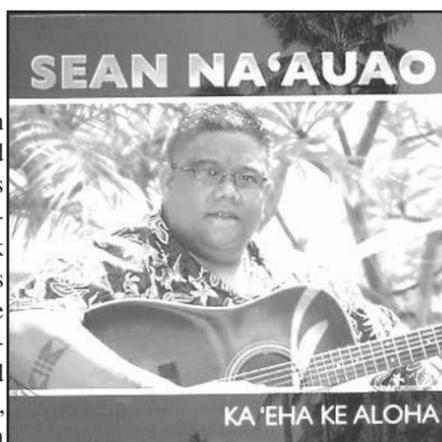

Ka 'Eha Ke Aloha

Artist: Sean Na'auao

Na Hoku Hanohano Award winner, Sean Na'auao, singer, musician, composer, and producer has made his mark in Hawaii's multi-faceted music industry. Sean has chosen to include an original song by Frank Kawaikapuokalani Hewitt, also the album's title, "Ka 'Eha Ke Aloha." The song is sure to become a hula classic. Sean's breathtaking falsetto range mixes with the crisp and mellow voice that we have all come to love, taking classics like Queen Kapi'olani's "Ka Ipo Lei Manu" and "Papalina Lahilahi" to new heights. Sean also incorporates the lovely Still Pounding beat with "No Hawaiians, No Aloha", "Backyard Slack" and many more original compositions written by Sean and his wife Kau'i.

The smooth voice of Sean Na'auao is also included in a new Mountain Appleand O'ahu Visitors' Bureau release. The twelfth and final song on "Kanikapila O'ahu Style" is Sean's rendition of "Aloha 'Oe".

"Ka 'Eha Ke Aloha," proves once again that the resurgence of young talent paying tribute to Hawaiian culture, tradition and language, will continue to be embraced by young and old Hawaiian music enthusiasts alike. The Mountain Apple Company distributes this Poi Pounder Records production by Sean Na'auao.

Desi Pule explains the significance of the beads in the "ipu keychain" to Midge, Peggy, and Gina. and the importance of BSE and regular mammograms.

Pink is the color of Hope ...cont. from page 1

All women are at risk for breast cancer, You can have tests that can find breast cancer early. Mammograms can find breast cancers when they are too small to feel. A clinical breast exam, by a doctor or nurse, is an important way to check for breast cancer.

Both Dr. Sandra Brazzel and Dr. William Thomas "going pink" and available to meet and talk story with women attending Friday afternoon's event. The women enjoyed pink cake, pink mochi, pink fruit salad and pink punch after visiting three stations.

For both young and the mature women of Moloka'i this October is Breast Health Awareness month event was an important event surely to be repeated. As they left the celebration clutching information brochures, wearing Val's beautiful pink plumeria, maybe for more than a few, to be better informed means there is "Hope for Life"-- pink bracelet.

Birth Announcement

Baby girl **Kiera La'iku Len Wai-McGuire** was born on October 18, 2005. She weighed 6 lbs. 8.4 oz. and was 20 inches at birth. La'iku means "great calm, quiet, peace, serenity."

Parents are Kaahaaina "Maka" McGuire and Greig Len Wai. Baby's big brother is Kailor. Grand parents are Ann & the late Mickey McGuire; Leroy & Flory Ocampo and Kimo & Christy Kaiama. Great grandparents are John & Mary Ocampo. Certified Nurse Midwife De Edda McLean attended the birthing at Molokai General Hospital.

Youth Basketball Registration Minors • Biddy • Menehune Divisions

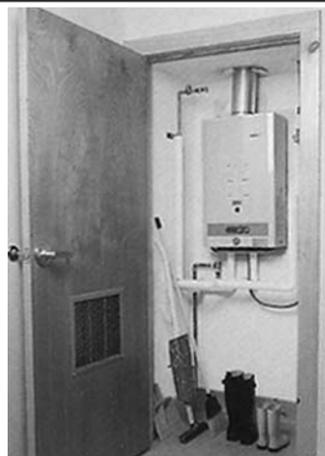

MINORS Division Ages 8-9 registration deadline October 28, 2005; Monday 6pm
BIDDY Division Ages 10-11 registration deadline November 01, 2005; Tues. 6pm.
MENEHUNE Division Ages 12-14 (9th graders will NOT be allowed to participate) registration deadline Nov. 01, 2005; Tuesday 6pm.

Registration release and information forms are available at all school offices or with the district coaches, or at the Kaunakakai Gym Recreation Office from 10am-9pm (Mondays thru Fridays) and Saturdays 10am-3pm.

Before participation will be allowed; by the registration deadline, a registration release and information form and a copy of your child's birth certificate must be turned in to either district coach or the Kaunakakai Gym Recreation Office.

A fee amount will be determined by Team Coaches for a shirt uniform.

For more information call the Kaunakakai Gym Office at 553-5141, FAX 553-3206. Registration sign ups are being accepted now!

New CD Release: *One Little Dream*

Artist: Mihana

Mihana opens this second solo CD album with stunning non-traditional rhythmic version of her Family Chant of Welcome in Hawaiian. She invites listeners (translated from Hawaiian into English): "Our welcome rises like the scent of a flower, gently touching you, our friends who have come. In the beginning, a very generous spirit blossomed here and it reaches out to surround you and to draw you close...come, come and enjoy the scent of this very special flower. Mihana Souza Aluli, daughter of Irmgard Farden Aluli and part of one of Hawaii's most prolific musical families performs her mother's song, "Dream." Eleven other songs with intriguing titles including: "Chucky (in the kitchen)," "Wrap," "Limit," "Thief," and

"Peace" among others were written by Mihana and Richard Stekol or Richard Bredice. "Chant" was written by Hailama Farden, Richard Stekol and Frank Continola. Mihana's debut solo album in 2002, "Rust on the Moon," garnered her a coveted Na Hokuhanohano ward. Powered by the catchy "Hula (Rockin' Mama)", her solo album was recognized on Americana and Triple A nationally. She became the first Hawaiian artist ever to chart at Americana (#22), backing it up with a series of sold-out West Coast shows. A member of the well-known family group, Puamana, Mihana is forging ahead on her solo performing path. The newest release, *One Little Dream* is more than an eclectic mix of music from a vibrant artist who continues extensive touring and promotion all over the mainland and Hawai'i.

Mihana's *One Little Dream* is distributed exclusively by The Mountain Apple Company.

MORE I.R.S. PERSECUTION AND JUDGE DENIES INFO TO JURY

I want to alert you to a significant event that has manifested itself in the Irwin Schiff/Cynthia Neun/Lawrence Cohen I.R.S. tax trial currently underway in Las Vegas. In a development reminiscent of my own trial, the jury has apparently asked to have the IRS code book brought in to them so that they could examine it. The judge denied this request saying that providing it to the jury would be "problematic".

On the first day of the jury's deliberations in my trial, the prosecution's worst nightmare came true when the jury asked to see for themselves a year 2000 edition of the Title 26 of the Code of Federal Regulations (Title 26 of the Code of Federal Regulations is a compendium of rules created by the Secretary of the Treasury to clarify and implement the Internal Revenue Code). As one of the jurors explained to me after my trial, the jury wanted to compare the excerpts I had taken from the Code of Federal Regulations (CFR) and presented to the Internal Revenue Service against what was actually written in the Code of Federal Regulations to see if I had been truthful. The judge in my trial, William B. Shubb, refused the jury's request to see the CFR for themselves just as Judge Dawson has apparently refused to let the Schiff jury see the Internal Revenue Code. Juror's suspicions about the prosecution's case are understandably heightened when they are forbidden from looking at the very book of laws that the defendant is accused of violating, and in my case the jury found me not guilty on all counts because there is no law.

The IRS created the income tax liability in the Code of Federal Regulations. See 26 CFR 1.1-1. HOWEVER, Congress did NOT enact any liability statutes for income taxes imposed by subtitle A of the IRC.

Our fundamental Right to Separation of Powers means that only Congress can make law, and the following online resources will inform you of the truth, and your rights so you can make an informed choice: pay the slave tax, or be a free sovereign:

Dear Editor:

Dudoit Stands Firm on Family Foundation

It is clear that unpleasant shadows have formed here on Molokai and disguise Themselves as stated by Stanley Griep in your Aug 3, 2005 paper as "We came with love, goodwill, people who respect the aina (land) and all the people who Live here."

It is my view Stanley Griep, your memory has escaped you. Perhaps a Re-evaluation is necessary. Lets begin with fact #1 I give to your Mr. Editor a Copy of a typed written letter, dated Nov. 3, 2002 from Stanley and Joanne Griep, To be published please, that all may read and recognize what Stanley Griep's Character is like.

"Aloha Dudoit Ohana, John, Val and Kimo,

We are writing you this letter to send our aloha and inform you of our hopes and plans regarding the Molokai property which we share an interest in. As fate would have it, we find ourselves in the latter part of our lives without a home or place to live. Our share of the property is all we have, so we're going to try and make the best of it. When we came to visit last year, we were so moved by the beauty and tranquility of the place. The beach, the water, the view of Maui and Lanai, Whew! Since then, living there in a small house near the ocean has been a dream of ours. Hopefully, with common sense, mutual respect, and foresight we can work out a plan that everyone is agreeable to. We want you to know that we totally respect your way of life on the property and do not want to interfere to take away from that in any way. Of course, we would assume financial responsibility for any subsequent increase in taxes. We are making the move to Molokai soon and look forward to seeing you all and discussing the possibilities.

Sincerely, Stanley & Joanne"

Located on line #5 are the words "When we came to visit last year." A clear Fact Stanley Griep, you did come to my Dudoit family estate unannounced. Fact #2 you say fate has left you and your family without a home or a place to live. Is it my kuleana (responsibility) you made an unwise choice to sell your 5-bedroom house on Kauai? Fact #3 What do you mean by common sense? Make the move to Molokai knowing you haven't established a solid or partial relationship with the already Residing Dudoit family? Is it common sense to appear at my home on Jan. 15, 2003 between 8 and 10 a.m. to start a confrontation with me, thus causing me to have an Asthma attack? Is this goodwill? Fact #4 Help me understand your concept of mutual respect. I Val Dudoit allow you and your family beach access because you have none. Yet you on Jan. 24, 2003, initiate a confrontation, concerning entrance into Our family estate, causing me an asthma attack. This was witnessed by your wife, my Girlfriend and my girl friend's daughter. Is this having love?

Fact #5 Foresight is defined by you as what? You expecting to be welcomed with open arms, just because you claim ownership? Foresight to me is, pursuing your Personal wants of taking away my family foundation. Is this having peace in your Heart? Fact #6 You say in your letter "You totally respect my way of life on the Property and do not want to take away from that in any way." Yet you hire a lawyer to pursue my family foundation, so you can replace it with yours. On Sept. 5, 2004 you threatened to cut my locked cables, which you did. Is this the behavior of a man who is humble and shows respect? Is your conduct showing love, goodwill and peace in your heart? Since your relocating here to Molokai, the amount of discord you have released to me and my family has been a constant strain.

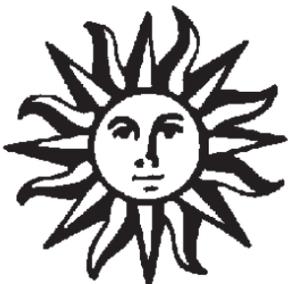

As for your ownership, my father has questioned it from day one, most of all my father has never agreed to any of your plans. This is why we're in litigation against you.

Hence, you say your grandmother owned an interest in my family property before my grandparents, if so why did she live in Pukoo? What was your grandmother's maiden name? My kupunas (elders) and I ask you to identify the name of your great-grandmother, who you say is pure Hawaiian. You have missing links which do not confirm your claim.

Further more, it has always been a privilege for me as well as all my family members to live here on our family estate and yes, I am fortunate. I do not pay rent like you, I pay land taxes, which I have been doing for over 20 years. As for my Family's ownership and purchased interest, there are deeds and documents in possession. the burden of proof is on you Stanley Griep.

I say this to you, love, good will and having peace is me, Val Dudoit for not filing charges against you, Stanley Griep, for all the havoc you have cause to my Health.

Most of all, the true spirit of "Aloha" is this, you humbling yourself and be the caring person you say you are. Make a fresh new start of friendship. My doors are open. You know where I live. -- Val Dudoit

War: How many dead?

BREAKING NEWS: New York Times Editor Bill Keller admits his newspaper aided and abetted the Bush administration's false claims of existence of weapons of mass destructions in Iraq. [So, why do we die?]

Officially, 84 US Military Deaths in Iraq from 2 through 28 May, 2005, "Official Total of 1,747 US Dead to date (and rising) U.S. Military Personnel who died in German hospitals or en route to German hospitals have not previously been counted. They total about 6,210 as of 1 January, 2005. The ongoing, underreporting of the dead in Iraq, is not accurate. The DoD is deliberately reducing the figures. A review of many foreign news sites show that actual deaths are far higher than the newly reduced reports. Iraqi civilian casualties are never reported but International Red Cross, Red Crescent and UN figures indicate that as of 1 January 2005, the numbers are just under 100,000. Note: There is

excellent reason to believe that the Department of Defense is deliberately not reporting a significant number of the dead in Iraq. MATS records that show far more bodies shipped into Dover AFP than are reported officially. The educated rumor is that the actual death toll is in excess of 7,000 USA troops. Given the officially acknowledged number of over 15,000 seriously wounded, this elevated death toll is far more realistic than the current 1,900+ now being officially published.

In addition to the evident falsification of the death rolls, at least 5,500 American military personnel have deserted, most in Ireland but more have escaped to Canada and other European countries, none of whom are inclined to cooperate with vengeful American authorities. (See TBR News of 18 February for full coverage on the mass desertions) This means that of the 158,000 U.S. military shipped to Iraq, 26,000 either deserted, were killed or seriously wounded.

The DoD lists currently being very quietly circulated indicate almost 9,000 dead, over 16,000 seriously wounded and a large number of suicides, forced hospitalization for ongoing drug usage and sales, murder of Iraqi civilians and fellow soldiers, rapes, courts martial and so on.

Haven't we had enough of this?

And the Depleted Uranium ?

America used Depleted Uranium weapons in Iraq in the first gulf war and we are using them again without any thought of the devastating long term effects on the local population or our own people.

Of the 697,000 U.S. troops who served during Operation Desert Shield and Desert Storm, more than 100,000 have registered with the Department of Veterans Affairs (VA) or the Department of Defense(DOD), with health problems. We have given their sickness a catchy name, Gulf War Syndrome, which our government and their carefully scripted parade of doctors, scientists, and media mouth pieces tell us does not exist. Ask any one of the thousands of sick American veterans if it exists.

This next wave of victims that Bush Jr. will send into Iraq may not have the benefit of medical coverage later in life when they fall sick from Uranium-238 dust in their lungs: lifetime medical coverage for career military personnel is terminated.

The Federal Aeronautics Administration (FAA) report puts the lie to industry, Pentagon, and NATO denials of health risks associated with depleted uranium [DU] exposure: "If particles are inhaled or ingested, they can be chemically toxic and cause a significant and long-lasting irradiation of internal tissue."

Military troops who inhale or ingest DU could suffer kidney failure within days, and that civilians in DU-bombed areas face a long-term risk of cancer and heavy metal poisoning, groundwater contamination from corroding DU ammunition fragments. Canadian researchers have found "unequivocal evidence" of long-term DU contamination of Persian Gulf vets: soldiers exposed to DU in wartime have suffered 10 times more genetic damage than the general population.

The U.S. Dept. of Veterans Affairs study recently found that children of veterans of the Persian Gulf bombardment are two to three times as likely as those of other vets to have birth defects, and more miscarriages.

In Iraq, government figures show the number of reported cancer cases increased 12 fold between 1991 and 2001. The radiatin could render large areas unusable and require lengthy and expensive clean-up efforts.

The United States has admitted in 2000 that its DU munitions contain Plutonium, Neptunium and Americium fission wastes from inside nuclear reactors and other reactor-borne fission products far more radioactive and carcinogenic than uranium-238.

Plutonium and Fluoride are probably the most carcinogenic substances known.

Poison weapons are illegal in any armed conflict. The U.S. Air Force's 1976 manual: Poison is defined as "biological or chemical substances causing death or disability with permanent effects when, in even small quantities, they are ingested, enter the lungs or bloodstream, or touch the skin." The Hague Conventions: "It is especially forbidden: To employ poison or poisoned weapons."

Because the U.S. government has known since at least 1984 about the poisonous effects of its DU warfare, the commanders of bombing raids over Iraq, Bosnia, Kosovo and Afghanistan may well hope the White House wins its fight for immunity in the International Criminal Court. If not, justice for the Pentagon's dirty bomb contamination may move from the watercooler into the court room, and then to the streets.

"I've been concerned about DU since veterans of the first Gulf War began to experience unexplained illnesses, commonly called Gulf War Syndrome, that remain mysterious," politician McDermott said. He added that there are reports from Iraqi doctors and others today of seemingly unexplained serious illnesses including higher rates of cancer and leukemia, and even birth defects.

"We pretended there was no problem with Agent Orange after Vietnam and later the Pentagon recanted, after untold suffering by veterans. I want to know scientifically if DU poses serious dangers to our soldiers and Iraqi civilians." [DUH ?]

Buddha's Wisdom

Do not believe on the strength of traditions even if they have been held in honour for many generations and in many places; do not believe anything because many people speak of it; do not believe on the strength of sages of old times; do not believe that which you have yourselves imagined, thinking that a god has inspired you. Believe nothing which depends only on the authority of your masters or of priests. After investigation, believe that which you have yourselves tested and found reasonable, and which is for your good and that of others. Doubt is an incitement to research, and research is the path to true knowledge. [Politicians hate to face informed people]

Hot Water Heater

Molokai's Forum For Freedom Individual's Sovereignty vs Slavery

by George Peabody ph. 558-8253 email: molokaiman@flex.com

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God." —James Madison

Bill of Rights 2nd Amendment:

"A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Wake up militia! Use it , or lose it ! Got your gun, yet?

Judge Alex Kozinski, a federal appeals judge and an immigrant from Eastern Europe, warned in 2003, "the simple truth -- born of experience -- is that tyranny thrives best where government need not fear the wrath of an armed people."

"The prospect of tyranny may not grab the headlines the way vivid stories of gun crime routinely do," Judge Kozinski noted. "But few saw the Third Reich coming until it was too late. The Second Amendment is a doomsday provision, one designed for those exceptionally rare circumstances where all other rights have failed -- where the government refuses to stand for reelection and silences those who protest; where courts have lost the courage to oppose, or can find no one to enforce their decrees. However improbable these contingencies may seem today, facing them unprepared is a mistake a free people get to make only once."

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God." —James Madison

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor." (Decl. of Indep.)

REPUBLIC vs DEMOCRACY

In a REPUBLIC, NOTHING is above the 'PEOPLE, and the PEOPLE make the decisions instead of some RULING CLASS. That is why a jury's verdict cannot be reversed by any government official, such as a lawyer-judge or anyone else. If a lawyer-judge can reverse a jury's verdict, that would place judges above the people, making "our" government an ARISTOCRACY and NOT a REPUBLIC. The people are the Sovereign in The American Republic, the Great Republic, which was the only true republic to ever have adorned the pages of history; a form of government in which the citizen is sovereign - government is his duly appointed servant.

"Where rights secured by the Constitution are involved, NO rule-making or legislation can abrogate them." —Miranda v. Arizona

THE PEOPLE IN A REPUBLIC ARE SOVEREIGN and MILITIA.

In all democracies government is sovereign and the citizen is servant. A democracy thus is the opposite of the Great Republic and opposed by the individual sovereign American citizen militia.

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

Defender of the U.S. Constitution and Enemy of the New World Order Police State

"Rebellion against tyrants is obedience to God." Thomas Jefferson

Enforce the Bill of Rights!

Gun Rights for Alaska

Starting Wednesday, handgun owners won't need permits to carry concealed weapons in the Alaska. There also will be no more restrictions on keeping a firearm in a vehicle. And, new state gun rights law that goes into effect will essentially bar municipalities from passing gun laws that are more restrictive than this state law.

The National Rifle Association helped state Rep. Mike Chenault write the legislation to prevent cities from passing more restrictive laws in the future. It calls it state preemption, and Alaska will be the 44th state to have such a law on its books.

"We are looking to make it uniform to all 50 states," said NRA spokeswoman Kelly Hobbs. "Without it, it creates an unfair, inconsistent and confusing patchwork of local firearm ordinances." All of violate the 2nd Amendment right to keep and bear arms.

INDIVIDUAL SOVEREIGNTY

God Created us in His Image, to be sovereign in our own realm, but man-made law has included such truth in our Constitution for the United States of America, and even the U.S. Supreme court has it on record: see *Hale v. Henkel*, 201 U.S. 43, 74 (1906): Individual Sovereignty "The individual may stand upon his constitutional rights as a citizen. He is entitled to carry on his private business in his own way. His power to contract is unlimited. He owes no duty to the State or to his neighbor to divulge his business, or to open his doors to an investigation, so far as it may tend to criminate him. He owes no such duty to the State, since he receives nothing therefrom, beyond the protection of his life and property. His rights are such as existed by the law of the land long antecedent to the organization of the State, and can only be taken from him by due process of law, and in accordance with the Constitution. Among his rights are a refusal to incriminate himself, and the immunity of himself and his property from arrest or seizure except under a warrant of the law. He owes nothing to the public so long as he does not trespass upon their rights."

Cool! Got SOVEREIGNTY? Yep! Just ask me.

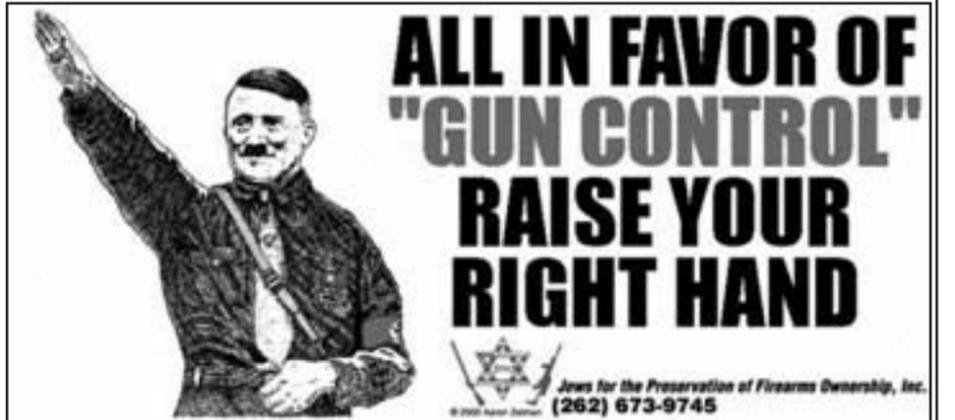

Second Amendment as proposed by the Framers in 1789

Legal cit: "The provision in the Constitution granting the right to all persons to bear arms is a limitation upon the power of the Legislature to enact any law to the contrary. The exercise of a right guaranteed by the Constitution cannot be made subject to the will of the sheriff. [*People vs. Zerillo*, 219 Mich. 635, 189 N.W. 927, at 928 (1922)]"

"A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

The Second Amendment is a real, narly, viable, effective Second Amendment, a real deterrent to a rogue government. This Second Amendment recognizes the authority and power of ordinary citizens to retain the pragmatic means to hold the government bureaucracy to limits, to have the pragmatic means to defend against the common criminal, and to have the pragmatic means to defend self, loved ones, community, state, and nation-- to deter all Aggressors, all Tyrants, and all Foreign Invaders.

The Second Amendment promotes real Homeland Security-an armed population-one that was skilled in arms and was trusted by the Government-a Government that trusted the People because the People appreciated that the Government took their rights seriously and did not pose a viable threat to their rights. We need it specially, now.

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights!

Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man. **Wake up! Enforce the Bill of Rights!**

"A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed." Exercise the 2nd Amendment.

New Book Release: *Hawaiian Volcanoes*

Author: Capt. Clarence Edward Dutton

Foreword by Dr. William Halliday

HAWAIIAN VOLCANOES was written by Clarence Edward Dutton as part of the 1883 Annual Report of the U.S. Geological Survey. This recent publication by the University of Hawai'i Press [ISBN -08248-2960-3, softcover, pp. 235], is introduced with a foreword by William R. Halliday, M.D. a Big Island surgeon and rehabilitation medicine specialist with a half-century interest in history and geology.

Capt. Dutton explored and wrote a monograph of the Grand Canyon before his 1882 assignment by John Wesley Powell to survey the volcanoes of Hawaii. *Hawaiian Volcanoes* is Dutton's account of the 4 months in Hawaii on the Big Island exploring and studying Mauna Loa, Mauna Kea and Kilauea. He is credited with the use of the Hawaiian terms *a'a* and *pahoehoe* to describe lava flows, accepted by geologists today.

Capt. Dutton's geological report on Hawaiian Volcanoes includes maps and valuable photographs of volcano examples, landmarks on the Big Island and Oahu of 1882 Hawai'i. This first comprehensive study of volcanism in Hawai'i is of scientific and historical importance and is described as an "entrancing nineteenth-century 'road-side geology' of the Big Island and much of

Maui. "Dutton's literary style combines clear, elegant writing with his eye of color and line with meticulously accurate observations of Hawaii's people and landscape, as well as its geological phenomena in the 19th century.

In the forward by Dr. Halliday he gives a biological sketch of Dutton and his "detached duty with the Powell Survey, (US Geological Survey) from the Army's Ordnance Corps for 15 years. A winner of the Yale Literary Award, Dutton was also described by his son as a man who could play seven chess games blindfolded. Clarence Dutton left the world a valuable document in the scientific study for Hawaiiana students and readers of the Hawaiian culture and environment. -SP

White House 'Hip-Deep' in Plame Scandal Cover Up

Senior White House officials over the weekend warned President George W. Bush to "prepare for the worst" in the ever-deepening Valerie Plame scandal, laying out a scenario that includes - indictments of top officials and detailing - a direct involvement by the Administration in a - concentrated effort to destroy the credibility of Ambassador Joseph Wilson and then conceal the actions from investigators.

Chief of Staff Andrew Card cancelled a weekend schedule of appearances and events to spend the weekend with Bush at Camp David and deliver the bad news personally, White House insiders tell Capitol Hill Blue.

With indictments expected against Lewis "Scooter" Libby, Vice President Richard Cheney, s chief of staff, and possibly White House Deputy Chief of Staff Karl Rove, Card told Bush that both will have to resign if the administration is to salvage any chance of recovering from the scandal. "We're hip deep in this and the sharks are circling," Card told the President.

3rd Annual Business & Food Expo

Presented by the Molokai Chamber of Commerce

*Pu ke Pono
Maika'i*

*Sharing
the Goodness*

On behalf of the Board of Directors of the Molokai Chamber of Commerce, we'd like to thank you Molokai for joining us at the 3rd Annual Molokai Business and Food Expo. We had 6 of Maui County's Finest Chefs creating mouthwatering dishes utilizing the finest produce from Molokai. Thank you Chef Dean Louie, Chef Michael Gallagher, Chef Lyndon Honda, Chef Tom Muromoto, Chef Alex Bermudez and our own Chef Erwin Kudoba for taking time out of your busy schedules in volunteering for this event. Big Mahalo also goes out to the farmers who supplied the food items for the Chefs: D & J Ocean Farms, Molokai Sea Farms, Koaniani Hydroponic Farms, Mahana Produce, Waialua Permafarm, Kumu Farms, L&R Farms and Hawaii Kai Salts.

We'd also like to extend our thanks to all the Crafters and Businesses who participated this Year, as well as the Molokai High School Business Entrepreneur Classes.

No expo would have been complete without fine entertainers and we had them! John Feary, Jeff Rasmussen, Alten Levi and Gavin Kaina kept the crowd wanting more. We'd especially like to thank the tireless efforts of Lina Girl from KCCN FM 100.3 who emceed our show and kept us laughing.

The Coffee Dessert Recipe Contest was sponsored by Friendly Isle Coffee Company and we'd like to extend our gratitude to them as well as all of the individuals who creatively whipped up awesome desserts for our Judges, Lynn, DeCoite, Chela Lopez Kuhn and Gavin Kaina.

All the work to produce this event was made possible by the efforts of Cameron & Jacque Hiro and molokaievents.com. If you'd like recipes, or you'd like to be a sponsor for 2006 or if you have the desire to register early for a booth in 2006, please email moinfo@molokaievents.com. ~ Bon Appetite Molokai ~

Our proud sponsors this year were the **County of Maui, Office of Economic Development**, American Savings Bank, Young Brothers, Maui Electric, Hawaiian Telcom, Honolulu Advertiser, AIG Hawaii, and Benedictus & Associates.
