“Victory for Moloka‘i” on EC Election

CONGRATULATIONS TO: LEILA DUDOIT STONE and BRIDGET MOWAT WINNING BY A LANDSLIDE...

This is an Unofficial Election Results sent by Abbey Mayer:

Bridget Mowat	871	Leila D. Stone	812
Colette Machado	374	Cheryl Corbiell	286
Claud Sutcliffe	120	Tracy Ann Hao-Frantz	78

Total Turnout: 1284

MAHALO TO ALL OF YOU FOR MAKING THIS ELECTION PROCESS POSSIBLE. MALAMA PONO,

The EC vote on Wed. Jan 31 was a victory for Molokai. It is a great story of an Island that participated in a democratic process in large numbers with out the influence of government. It was a grass roots effort of a community determined to express their choices. Both sides of the issue worked hard and created a safe place for all to participate, and participate we did. The election was and is the talk of the island.

The Save La'au candidates delivered a landslide victory and in the process ousted well known politician and OHA trustee Colette Machado. Also in the loss was Claude Sutcliff who called the elections a "community referendum" on the issue of whether to develop La'au Point.

The silent majority had a chance to speak, and it was a deafening NO! to the La'au development. Those who won, were against the La'au Development, and the two incumbants who lost, were for the development.

The question begs to be asked, "How much more does this community have to do and say, before Peter Nichols keeps his word about having the community decide whether La'au will be developed.

Congradulations Molokai you made yourself proud...KU'E! ---- *Walter Ritte.*

Brothers Get 10 Years for Puppy Torture

Two Atlanta brothers will soon begin serving a ten-year prison sentence for the torture killing of a puppy.

The Moulder brothers, 19-year-old Justin and 17-year-old Joshua, pleaded guilty to binding the puppy in duct tape, then burning the dog alive in a gas oven.

"Your actions are totally despicable; totally reprehensible," said the judge from the bench., and then sentenced each of the boys to ten years jail time.

Defense attorney Timothy Owens. "...the sentence didn't match up to the crime."

But the courtroom was packed with people who disagreed -- many believing the sentence was not long enough, given the brothers' conduct, and lack of remorse.

Prosecutor Laura Janssen. "Just to see how something so serious was so funny to them....no respect for the life of this innocent puppy."

Prosecutors said the case went way beyond animal abuse. They believe for the Moulder brothers, it was puppies first; humans next. And that the torture was little more than a rehearsal for murder.

Huka wai i ke pili ! Ku e! Limitations Violated by I.R.S ! see IRS-America:Freedom to Fascism

The instructions say that ALL income, from whatever source, is taxable, but the rest of the law which most people don't read says that income may be exempt because taxation of wages is prohibited by the Constitution for the United States of America. READ the LAW.

Former IRS Commissioner Sheldon Cohen, on camera, admitted that the "tax statutes only call for 'voluntary compliance'." U.S. Senator Dan Inouye has also stated that after thorough investigation by the Congressional staff, there is no law that requires American Citizens to file a tax return 1040 to pay taxes on wages. No SPECIFIC LIABILITY unless you make yourself liable, by executing Form 1040 voluntarily under penalty of perjury.

Do you VOLUNTEER to pay 48% of your wages to the IRS? Most people do, because they are afraid not to pay, because the IRS has the guns and goons, and if you combine the letters IRS with a T and a H, it says "THEIRS"! KU E ! Huka wai i ke pili!!

1953 IRS commissioner Coleman Andrews "I don't like the income tax. Every time we talk about these taxes we get around to the idea of 'from each according to his capacity and to each according to his needs'. That's socialism. It's written into the Communist Manifesto. Maybe we ought to see that every person who gets a tax return receives a copy of the Communist Manifesto with it so he can see what's happening to him." —May 25, 1956, in US News & World Report. He left the position in 1955 claiming his opposition to the Income Tax.

Judge James C. Fox in Sullivan v. United States, admitted in the court record that the 16th Amendment failed ratification, so the IRS is illegal. Even the Supreme Court has joined the cacophony of federal government officials who

admit, when cornered, that it is voluntary. So, this "voluntary" thing has not been a mistake or an occasional slip here and there; it has been the consistent policy of top officials of the Internal Revenue Service, the Justice Department and the Supreme Court, believe it or not, but they use guns and goons to collect taxes.

Its time to end the IRS-TREASON against Americans by not volunteering to pay taxes on your wages. There is no law that requires anyone to pay tax on wages. [Sycophant T.V. and newspapers like Dispatch and Molokai Times help keep it a secret because they get big advertising dollars from "Tax Assistance" providers]

Why are people rotting in jail on conviction of failing to pay taxes? Americans have forgotten our motto: "Live Free or Die". Another problem is that most Americans give the rulings by these judges legitimacy because they really don't know what happens inside the courtrooms, Americans being deprived the right to due process by Federal, State and local judges. The conviction is therefore void and appealing the decision just brings it in front of the same crooks. There is no more oversight to hold these judges and prosecutors accountable.

In the face of a bureaucracy that is already acting illegally and unconstitutionally, violence is going to start somewhere, some time. We had better get used to that idea and prepare for it. We The People kicked out one tyrannical tax-happy government in 1776. And it looks like we may have to do it again.

More education, presented in a very rivetting way in **America: Freedom to Fascism** movie by Aaron Russo is airing on AKAKU and OLELO community TV stations now, presentor George Peabody, and community showings at your church or club is available too, call 558-8253 for free reservation.

Cruise Ship fined \$750,000 whale death case

Princess Cruise Lines was sentenced January 29 for failing to operate one of its ships in a slow, safe manner near Glacier Bay National Park where a humpback whale was found dead of massive skull fractures.

The body of the 45-foot, pregnant humpback whale was found floating in Icy Strait near the mouth of Glacier Bay in Southeast Alaska in July 2001. Humpback whales are an endangered species.

The company pleaded guilty to knowingly failing to operate the cruise ship at a slow, safe speed while near two whales July 12, 2001, and paid a maximum \$200,000 fine, plus \$550,000 in restitution to the National Park Foundation.

Molokai's Forum For Freedom Individual's Sovereignty vs Slavery

by George Peabody ph. 558-8253 email: molokaiman@flex.com

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God." —James Madison

Who has a Most Dangerous Job?

The American people have been told for years that law enforcement work is the most dangerous job in the United States.

Since September 11, 2001, this has been shoved down our collective throats: that law enforcement work is the most dangerous job and we must honor them with massive funerals, memorials, speeches and tears (real or fake). 55 law enforcement officers were killed in 2005 were killed in 24 states and Puerto Rico. Of the 55 who died, 15 died while in vehicle pursuits or traffic stops.

The truth is that law enforcement work is not as dangerous for cops as we have been lead to believe and is maybe one of the safest jobs to have because they carry firearms for self defense and frequently train for self defense, and have lots of back up forces. The sad truth is that if we defend ourselves, we are held above those that are sworn to protect us and we become the criminals. The paraphrase: "use a gun, go to jail, wear a badge, paid vacation," is more true today that it was when it was first stated. No matter what they do, they are not held accountable for their actions; right or wrong.

Law enforcement officers, federal and non-federal, have been told, trained and brained washed to the fact that we, the private citizen, are the enemy. We are the dangerous ones, we want to get them and law enforcement treats us in that manner. Consider the past years and the number of law enforcement shooting that have occurred in this country: mistaken identity, wrong address, over zealous actions or just plain incompetence. No matter what happens they are not held accountable and they walk the street, free and the private citizens walks in fear.

So, who does have the most dangerous occupation in the United States of America?

In 2005, 16,692 private citizens were murdered in this country, these are the ones that we know about and were reported to law enforcement.

In 2005, 30 children were murdered while attending school. The locating of school resource officers (law enforcement officers) and the passing of "gun free zones laws" has not stopped the murder of our children.

We, the American citizens, go about our lives in somewhat relative safety, we hope. However, the real truth is that we, as private citizens, are more likely to die in a violent manner, than those who wear the badge and it does not matter whether we walk the street or drive on the highway. We may even be murdered by an official with a badge!

The criminal element will avoid the uniform and badge and pick a target that is most vulnerable. The private citizens that are on their way to work or the store are real targets, because the criminal can read their victims like we read a book. Undercover law enforcement officers are not and do not look, appear or make themselves into a possible victim. Undercover law enforcement officers do not want a confrontation where they do not have complete control of the situation; the same is true of the criminal element. Maybe, that is why some experts compare law enforcement and criminals on the same plane. The criminal picks their victims very carefully. They, the criminal, do not want trouble, confrontations or to get hurt, same as law enforcement. The criminal will harm you but they do not want to be harmed, same as law enforcement.

The private citizen can appear different in public but we are and should be more concerned with everyday life and not having to look over our shoulder every second. We can try to be aware of what is going around us and we should be but there are too many distractions in this very difficult life that we have.

The elected officials (federal, state and local) make laws, rules and regulations, influenced by law enforcement officers. Judges make decisions based on what law enforcement officials and what elected officials want. Rarely do judges make decisions based on the United States Constitution and the Bill of Rights.

The private citizen is in no way able to effectively challenge or influence what is put into law, what rules are made or regulations are put into place by these elected official. There is no peaceable way that we are able to influence the judicial system in favor of the United States Constitution and the Bill of Rights.

The private citizen is at the mercy of the elected officials, law enforcement, the judicial system and the criminal element.

The rights granted to us by our creator, to protect ourselves and be able to go about our lives in relative safety has been limited by unjust and unconstitutional laws, rules and regulations created by those in high offices who desire power over The People.

We, as private citizens, not elected officials, judges or law enforcement officers, are an unprotected group. We must fend for ourselves in a country that hinders the rights of law bidding, freedom loving people, who just want to be left alone, to live their lives in peace and safety without the government telling us what to do.

The private citizens have the most dangerous jobs. We are at risk no matter where you live. The private citizens must protect themselves.

The Supreme Court in 1981 (Warren v District of Columbia) ruled that law enforcement officers owe "no duty" to protect the individual; law enforcement is there only to protect the community, the elected officials and the elite judges and politicians. Every state within the United States has legislation or court rulings that law enforcement owes "no duty" to the individual, if you question this read the book "Dial 911 and Die". A lower court dealing with the same case ruled that police, fire and rescue have no legal obligation to respond to a 911 call.

We, the private citizen, are on our own. We know who the enemy is and you know who can protect you. There is no one there for us but us.

Enforce the Bill of Rights !

Bill of Rights 2nd Amendment: "A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Wake up militia! Use it , or lose it ! Got your gun, yet?

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor." (Decl. of Indep.)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

Book: Shooting Back

Should Christians carry guns?

What would YOU do if armed terrorists burst into your church during a worship service and started attacking your friends and family with automatic weapons? Would you be prepared to defend yourself and other innocents with deadly force, and would you be justified in doing so?

The only person in the world who has not only experienced this exact scenario firsthand, but who shot back against the terrorists and defended fellow churchgoers, and went on to write one of the most powerful books ever on the right and DUTY of Christians to be armed, is South African Charl van Wyck who wrote "Shooting Back: The Right and Duty of Self-Defense".

He found himself in a church being attacked by terrorists, murdering unarmed people in what is now called the 1993, St. James Church Massacre. "Grenades were exploding. An automatic assault rifle was being fired and was fast ripping whoever, whatever was in its trajectory to pieces. We were being attacked!"

But van Wyck was not defenseless that day. Had he been unarmed like the other congregants, the slaughter would have been much worse than the 11 dead and 58 wounded innocents.

"Instinctively, I knelt down behind the bench in front of me and pulled out my .38 special snub-nosed revolver, which I always carried with me," he writes in "Shooting Back." "Many people could not understand why I would carry a firearm into a church service, but I argued that this was a particularly dangerous time in South Africa."

van Wyck fired back, wounding one of the attackers, drove the others away.

Far from being just a reliving of the tragedy of the St. James Church Massacre, "Shooting Back" is a thorough examination of the whole issue of armed self-defense from a Christian perspective. It deals with burning questions that plague all conscience-driven people: Should we carry arms? When is it appropriate to defend ourselves and our families? What can we do when our freedom to carry arms is legislated away from us?

Using the Bible as his guidepost, van Wyck makes the case that Christians not only have the right but the duty to defend themselves and other innocents from such aggression.

[Do you think we could have a police chief and officers and AG who supports our fundamental right to self defense with firearms,the 2nd Amendment, on Molokai ?]

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights! Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man. **Wake up !
