ObamaCARE will Ration Medical Services just like in Socialist Countries

As part of ObamaCare's implementation, Obama has appointed an Independent Physicians Advisory Board (IPAB), a powerful unelected 15-member panel. The IPAB's main job is to oversee Medicare cuts under ObamaCare. Even worse, they are accountable to only the President and can seemingly even override Congress in controlling Medicare spending!

The Wall Street Journal described Obama's cost-cutting IPAB this way...

"Mr. Obama, by contrast, is relying on the so far unidentified technocratic reforms of 15 so far unidentified geniuses who are supposed to give up medical practice or academic research for the privilege of a government salary. Since the board is not allowed by law to restrict treatments, ask seniors to pay more, or raise taxes or the retirement age, it can mean only one thing: arbitrarily paying less for the services seniors receive, via fiat pricing."

Many experts are predicting that healthcare rationing will be part of IPAB's oversight responsibility. This is a worst-case scenario developing for America's seniors. And it isn't far removed from the "death panel" picture that Obama, Pelosi, and Reid so vehemently denied when passing this healthcare disaster.

Defending America's seniors from this unconscionable attack is the Liberty Counsel's lawsuit against ObamaCare, and two federal judges already declared Obama's health care scam to be partially un-Constitutional.

Liberty Counsel will do everything possible to make sure that ObamaCare is struck down judicially, legislatively, or administratively. We WILL stand on behalf of America's seniors against ObamaCare! Just 15 days after the Easter Holiday, we'll be in court, contending that the misnamed "Patient Protection and Affordable Care Act" (ObamaCare) is totally unconstitutional! All across America, fellow patriotic Americans REFUSE to allow Obama to turn America into just another second-rate socialist state!

America's Birth Certificate: Declaration of Independence Historic Document on Display at Pearl Harbor

Obama the Usurper is shame to show his birth certificate to prove if he is a natural born American citizen, but the historic Declaration of Independence, considered the United States of America's birth certificate, is on display at the Pearl Harbor Visitors Center for a two-day exhibit.

Printed copies of the Declaration of Independence were made on July 4, 1776 and rushed to the 13 colonies to be read to the people and signed. 200 copies, and this is one of the originals, according to the director of special events for the Lear Foundation's Declaration of Independence Road Trip to Hawaii. Hawaii is the 44th state on the nationwide tour of the "People's Document" establishing the only country in the world where The People are the Sovereign, government serves, and the tyranny of the King of England was thrown off in the Revolution.

Only 24 were known to exist until this particular copy was found in 1989 by a flea market shopper. "An unsuspecting buyer went out and purchased a frame that he liked for \$4. Between the canvas and the frame, when he was inspecting a tear, he saw this document that was folded up behind there," said Miller.

"It's a great honor and we do see lots of visitation. So having it here provides the maximum opportunity to showcase this document," said Eileen Martinez, chief of interpretation at the Pearl Harbor Visitors Center.

The Declaration of Independence is enclosed in an airtight case and travels with tight security, on display at the Pearl Harbor Visitors Center on Tuesday and Wednesday [today]

The visitors center will be open extended hours for these two days from 7 a.m. to 7 p.m. to accommodate more people. Admission is free.

Obama-economy is Debt Crisis

Obama's Treasury Department has projected that the government will reach the \$14.3 trillion debt-ceiling limit no later than May 16 and run out of options for avoiding default by early July.

As the numbers show, the debt cannot be repaid without dollar debasement.

If the US were a company, it'd already be in Chapter 11.

FoxNews published a WHOPPER of a story, though it somehow has not caught the attention of most people.

For the first time since the Great Depression, the US is now officially paying out more benefits than tax receipts.

If the US were a company, it'd be spending more in salaries than it makes in sales. Aside from being unprofitable, it's also got a MASSIVE debt load. And it's current policy of paying out more than it makes only increases this debt load... which begs the question... who's going to pay the interest payments on the debt?

More than half of all Americans (59%) receive a Government payout in one form or another. This is not a sliver of the population...it is endemic to the system. So those who complain endlessly about Government spending need to consider they as well as half of everyone they know, likely gets some kind of assistance in the form of social security, Medicare, food stamps or what have you.

Here's another zinger: Government payouts account for 79% of household growth since 2007. In other words, the only thing that has kept the US consumer afloat in the last four years is payouts from Uncle Sam.

To say that these ObamaBushClinton policies are unsustainable is the understatement of the year. The only reason the US hasn't seen a complete debt implosion followed by hyperinflation is because the Federal Reserve is propping up the debt market with paper money printing that is prohibited by the Constitution for the United States of America. STOP IT ! REVOLT Makaala !

Gun Rights Protect Against Tyranny! Stop the McCarthy Magazine Ban bill !

Bill of Rights 2nd Amendment:
“A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.”
Wake up militia! Use it , or lose it ! Got your gun, yet?

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor."
 (Unanimous Declaration of Independence)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

"The people cannot delegate to government the power to do anything which would be unlawful for them to do themselves."- John Locke

"Those who make peaceful change impossible, make violent change inevitable." -- Robert F. Kennedy

"Rebellion against tyrants is obedience to God." T.J.

Enforce the Bill of Rights !

"And how we burned in the camps later, thinking: What would things have been like if every Security operative [insert your favorite alphabet Gang DEA, BATFE, H.S., TSA, FBI, IRS, NSA, CIA, LEOs etc. here], when he went out at night to make an arrest, had been uncertain whether he would return alive and had to say goodbye to his family? Or if, during periods of mass arrests, as for example in Leningrad, when they arrested a quarter of the entire city, people had not simply sat there in their lairs, paling in terror at every bang of the downstairs door and at every step on the staircase, but had understood they had nothing left to lose [neither do you now] and had boldly set up in the downstairs hall an ambush of half a dozen people with axes, hammers, pokers, or whatever else was at hand. The Organs would very quickly have suffered a shortage of officers and transports and, notwithstanding all of Stalin's thirst; the cursed machine would have ground to a halt!" -- The Gulag Archipelago, Aleksandr Solzhenitsyn

Whereas: The Second Amendment to the United States clearly states that the right to keep and bear arms shall not be infringed, and;

Whereas: H.R. 308, the Magazine Ban Bill, would infringe on every American's Second Amendment rights by outlawing the sale and transfer of gun magazines with a capacity of more than ten rounds, and;

Whereas: The Magazine Ban Bill would even turn widows into instant felons if their late husbands possessed a magazine capable of holding more than ten rounds, and;

Whereas: If the gun-grabbers succeed in passing H.R. 308 through the U.S. House, they'll then load it down with anti-gun amendments in the U.S. Senate, making the bill even worse;

Therefore: I urge you to vote AGAINST the Magazine Ban Bill (H.R. 308) -- or any similar bill -- at every opportunity.

If passed, H.R. 308 would outlaw the sale or transfer of firearm magazines with a capacity of more than ten rounds.

Without the petitions from pro-gun Americans, it is impossible for the National Association for Gun Rights to keep the pressure on fence-sitting members of Congress in order to defeat gun control.

The gunowners' Nightmare come true is HR308

In the wake of the Arizona tragedy, anti-gun groups and politicians have been falling all over themselves to "cash in" with radical new gun control schemes.

HR 308 is just the beginning.

Got your guns, yet?

If police are going to issue permits to legislators and judges and prosecutors, then you see the **PURPOSE** of concealed carry our way. No more need for permits, no need for registration, microstamping, no more quarrel with open carry, or other gun laws. Nobody needs a permit for self defense !

It's good to know that legislators finally see it our way.

President George Washington understood the importance of personal values as the underpinning of a great nation. In his farewell address, written after serving eight years as our first president, Washington wrote, "Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports." Washington understood that in order for a country to be able to self-govern, that trust between individuals based on common values was important foundationally as demonstrated by Japanese in this time of crises.

Gun Rights Refresher

1. An armed man is a citizen. An unarmed man is a subject.
2. A gun in the hand is better than a cop on the phone.
3. If guns cause crime, then pencils cause misspelled words.
4. "Free" men do not ask permission to bear arms.
5. If you don't know your rights you don't have any.
6. Those who trade liberty for security have neither.
7. What part of "shall not be infringed" do you not understand?
8. The Second Amendment is to enforce the other 9 Amendments.
9. 64,999,987 firearms owners killed no one yesterday.
10. Guns only have two enemies; rust and politicians.
11. Know guns, know peace, know safety.
12. No guns, no peace, no safety.
13. You don't shoot to kill; you shoot to stay alive.
14. 911 - government sponsored Dial-a-Prayer.
15. Assault is a behavior, not a gun device.
16. Criminals love gun control -- it makes their jobs safer.
17. If guns cause crime, then matches cause arson.
18. Only a government that is afraid of citizens prohibits guns.
19. You only have the rights you are willing to fight for.
20. Remove the people's right to bear arms, you create slaves.
21. The American Revolution was about gun control.

Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights!

Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man.

Wake up ! Enforce the Bill of Rights !

"A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed." Exercise the 2nd Amendment.

Hawaiian Trust Lands Issued by State of Hawaii for Non-Homesteading Purposes

The Native Hawaiian Policy Center has completed a publication on Hawaiian home land leases by the state of Hawaii, Department of Hawaiian Home Lands (DHHL). The Desktop Reference Guide made available to member organizations of the Council for Native Hawaiian Advancement (CNHA), completes research based on the 2009 Annual Financial Report issued by DHHL.

"This has been a great project to look at real data to gain a more clear picture of how the trust lands of Hawaiians have been deployed by DHHL over the last many years," said Michelle Kauhane, one of 18 members on the board of CNHA and the Policy Center's Chairwoman. "It shows that just over 67,000 acres of the total 200,000 acres of lands have been authorized for use for purposes that are not homesteading for residential, agricultural or pastoral leases to Hawaiians themselves. That's 34% of our total lands."

The Desktop Reference Guide became a priority for CNHA and the Policy Center it administers, when members identified the process under which the state of Hawaii issued lands was not transparent, nor standardized for requesting businesses, individuals and other organizations. The priority was adopted at the Annual Native Hawaiian Convention in October 2010 at the Hawai'i Convention Center.

"We've spent the last six months working on the project in fulfillment of this policy priority by our member leaders," said Robin Danner, CNHA President. "The data has always been out there, but not published by state government in a way that gives a full view. We know this will help advise not only our Hawaiian leaders in the homesteads, but also the new Abercrombie administration, and perhaps most importantly, the brand new Hawaiian Homes Commissioners to be cleared by the state senate this month."

Danner believes in increased transparency and consultation with Hawaiian community leaders in the administration of the Hawaiian Home Land Trust, as well as the ceded land revenue trust administered by the Office of Hawaiian Affairs. "Both of these trusts will perform better when they have the benefit of

data, and also, the benefit of the incredible knowledge of their beneficiaries," Danner remarked.

Findings published in the DRG are not limited to, but include the following:

1. A total of 67,736 acres have been issued under 702 land instruments statewide for non-homesteading purposes, representing 34% of the total land trust. 13,096 acres or 21% are under long term general leases, 28,444 acres or 42% are under month to month revocable permits and 26,195 acres or 37% are under short and long term licenses for public purposes.
2. The annual revenue received by the state by issuing these land instruments for non-homesteading purposes instead of issuing homestead leases to Hawaiians totals \$11.6 million per year as reported in the 2009 DHHL annual report. The average revenue earned for the trust totaled \$14.32 per acre per month on the 67,736 acres. It should be noted, the state spends in excess of \$14 million per year on state government workers to administer the trust, which exceeds the revenue generated, creating a net loss to beneficiaries of the trust not only in funding, but also lands not available to them for homesteading.
3. Hawaii Island lands are deployed for non-homesteading purposes the most at 37,986 acres, compared to Kauai at 927 acres, Maui at 14,056 acres and Oahu at 2,145 acres. Oahu lands earn the most revenue at an average of \$3,127 per acre per month.
4. The DRG describes the Lingle DHHL doctrine which put into motion an even more aggressive diversion of trust lands away from homesteading purposes and toward land instruments for non-homesteading purposes. Former Governor Lingle and her DHHL administration cut off any state funding support for the administration of the trust, forcing the government agency to take lands intended for homesteading and placing them into non-homesteading use in order to support the costs and expenses of the government agency operations.
5. Every non-homesteading land instrument in place as of 2009 is published in the DRG. Examples include a general lease of 509 acres to Maui Land and Pine on Maui for \$11.52 per acre per month, and a month to month revocable permit of 5 acres of beach front property to a church on Kauai for \$63.00 a month that has been in place for over 20 years. The church posts no trespassing signs along the beach, and coordinates no activities involving the larger community use of the trust land parcel.
6. A specific section in the DRG is dedicated to the Native Hawaiian Policy Center project wherein a standardized land request application form developed through consultation with beneficiary leaders is presented. The application form would put forward pertinent information for the Hawaiian Homes Commission to consider before taking action on non-homesteading land requests.

Copies of the DRG have been distributed to newly elected Governor Abercrombie and Lieutenant Governor Schatz, newly appointed Hawaiian Homes Commission Chair, Alapaki Nahalea, the Federal Director of the Office of Native Hawaiian Relations at the U.S. Department of the Interior, and to every elected homestead association president.

"This DRG is powerfully important to our beneficiary community, and to the new Abercrombie administration as it develops its strategy over the next four years for this unique trust," said Dickie Nelson, President of the Association of Hawaiians for Homestead Lands, a CNHA member. "It is also important to share with the Obama Administration, because the federal government has a trust responsibility under the Hawaiian Homes Commission Act. The Office of Native Hawaiian Relations at the U.S. Department of the Interior, along with Secretary Salazar, are important overseers of DHHL and state government in the administration of the Hawaiian Home Lands Trust."

The publication entitled Desktop Reference Guide: Disposition of Hawaiian Home Lands by the State of Hawaii for Non-Homesteading Uses, includes a listing of every land instrument issued by island and by type of instrument, as well as copies of legislation enacted in 2010 by the Hawaii Legislature under the championship of Senator Clayton Hee to mandate Beneficiary Consultation and revenue sharing to cultural and community non-profits. For more information, or to receive a copy of the DRG, email <mailto:policy@hawaiiancouncil.org>policy@hawaiiancouncil.org or contact CNHA at 808.596.8155.

Three Unanswered Questions:

Was Barack Obama Born in Kenya?

Is He Really a Citizen of Indonesia?

Does the Constitution still Matter?

We the People

**OBAMA IS A
USURPER!**

U.S. Constitution, Article II, Section 1, Clause 5 . . .

No person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any person be eligible to that Office who shall not have attained to the Age of thirty five Years, and been fourteen Years a Resident within the United States.

DEFINITION

The natives, or natural-born citizens, are those born in the country, of parents [both] who are citizens.

Emer de Vattel, "The Law of Nations and Principles of Natural Law," Vol. 1, Chap. 19, Sec. 212

"Citizen" of the U.S. if he was physically born in Hawaii, not born elsewhere and falsely registered as born there after the fact.

At birth, Barack Obama acquired dual citizenship through his British **non-U.S. citizen father**. Our Founders excluded dual citizens from eligibility to the Presidency for national security reasons.

Every military order Barack Obama gives as Commander-in-Chief, every bill he signs into law, and every executive decision he makes while unconstitutionally seated in the Office of President, are unconstitutional, and hence illegal. Obama is NOT a "natural born Citizen" of the USA.

The U.S. Courts and Congress **MUST** address the merits of the charges for this constitutional issue, and constitutionally remove Barack Obama in order to preserve, protect and defend the Constitution of the United States. This is their sworn Oath to the Constitution and to the American people.
