## Marijuana Green Harvest Raids Stopped on Big Island

### MPD DARE Cops Practice Assault

Molokai DARE cops are still practicing violent dynamic entry raids for show and unfortunately for real life even though marijuana users are the non-violent type of people compared to alcoholics. SWAT and violent entry raids are abuses of police powers in most cases; its a criminal act by police that needs prosecutions.

Meanwhile, Big Island police are getting a reality check: Hawaii County Council Rejects "Green Harvest" Marijuana Eradication Program, which is funded mainly by federal dollars.

"Green Harvest" began in Hawaii three decades ago and has been controversial ever since. Many residents opposed the program, saying low-flying helicopters searching for pot fields disrupted rural life and invaded their privacy. Others argued that the program has done little to eradicate marijuana and even promoted the use of other, more dangerous drugs.

By the 1990s, council members heeding public complaints began expressing reservations about the helicopter missions. In 2000, they rejected \$265,000 in federal eradication funds, two-thirds of the program's money that year. But the following year, they once again accepted the full amount offered.

But this time the Council's vote means the council will say "no thanks" to \$441,000 in state and federal funds for "Green Harvest." It also means the county will save the \$53,000 from its own budget that would have been its share of the operation's financial burden.

Last month, the council had narrowly approved "Green Harvest" on a 5-3 vote, but that vote had to be redone because the council failed to publish the legislation in local newspapers, as required by law. That provided the opportunity for Councilman Angel Pilago to change his vote and kill the program.

"This will have long-term impacts," Pilago said. "When we institute programs we, the county government, need to look at if they are detrimental to people's rights and the health and safety of the community. That's what we do," he said. "It's about home rule. The county must be assertive and aggressive and not defer certain powers to the state and federal governments. We must not cede those powers."

Pilago is running for mayor of Hawaii County, and his vote on "Green Harvest," as well as his support for a lowest law enforcement priority initiative currently underway there, could help him draw a contrast between himself and incumbent Mayor Harry Kim, who is a "Green Harvest" supporter.

Lets just hope Oahu, Maui, Kauai and Molokai will follow in their footsteps. Let the feds keep the funds and let the People of the Hawaiian Islands keep their freedom, and their sovereignty.

Russel thought it was a retirement party for Donald, and Donald thought it was a retirement party for Russel and their families and friends were in on the surpris.

### Retired ... from MGH

On April 19th, Family and friends of Russel Phifer and Donald Guterres celebrated their retirement from the Molokai General Hospital. Together the men accumulated a total of over fifty years of service. Russel for 20 years and Donald for almost 34 years! Russel left the hospital in late 2007 and Donald's last day was in January, 2008. The two friends were honored by their friends from the hospital and community at the Molokai IceHouse with lots of good food and music.

Russel is now self-employed with his fix-it, building maintenance business. Donald has his Midnite Taxi business since 2006 and can be reached by calling cell # 658-1410. Cynthia and Donald Guterres thanked the many friends who helped with food and entertainment. Manuwai Peters and Friends for music, Ruby Villa for the blessing, Cora Harris, Alex & Natalie, Kippy Puaa, Mr. & Mrs. Curtis Crabbe, Mr. & Mrs. Bully Johnston, Auntie Negrillo for her special prune cake.

# Oil Pipeline is for the Jews; Iraq War is for the Jews

(and you thought the oil was for the U.S.? and that 9-11 was perpetrated by Arabs? Lingle's lies!! Wake up and makaala !!)

## The Oil pipelines to Israel.

You are looking at the reason for the war against Iraq: the map for oil pipeline through Iraq. This war was initiated by Ariel Sharon for Israel's strategic benefit!

That's what Israel does. It has its intelligence organization, Mossad, carry out false flag operations like 9-11, and deceives others into attacking their enemies. In short they get others to fight their wars for them.

Israel is in the midst of its plan to use the United States military, which it controls, to conquer Iraq and divert Iraqi oil to the Haifa refinery via the Mosul to Haifa pipeline.

The U.S. has built airbases to protect this strategic pipeline. The pipeline is used to send oil to Israel. Paid for with the blood of American soldiers that die in

Iraq. Iraq is being turned into another Palestine state for Israel.

This war was fought in order to secure Israel's future. Israel, being a parasite nation, needed to create an income stream that would continue if funding from the United States should dry up. They have been working on the plan to steal Iraqi oil for years. Read Israel's Blitzkrieg on Middle East Oil PDF by Joe Vialls for more on this subject.

To quote Mr. Vialls article, "... they are already planning to steal 1,825 million barrels of Iraqi oil per annum. Taking a nominal price of US \$25.00 per barrel ... the Israeli-Jewish terrorists stand to make a cool US \$45,625,000,000.00 each year .... " [That's over 45 1/2 Billion dollars a year or \$125 million each day!!!] Mr. Vialls claims that the 45 billion a year jackpot is more than just a lot of money, it's a matter of survival for Israel.

The reshaping of the Middle East by America's military will allow Israel to:

- (1) Control the strategic oil reserves in this region which will ensure low cost oil to Israel and ensure their economic survival.
- (2) Ensure Israel is the dominant military force and the sole nuclear equipped military power in the region for many years to come .
- (3) Neutralize Israel's enemies in the region.
- (4) Expand borders per "Greater Israel". The Nile forming the border on the West through Egypt, the Euphrates on the East through Turkey, Syria and Iraq.
- (5) Allow further expansion of borders to encompass surrounding countries.

Israel has become the 3rd largest exporter of weapons in the world, selling everything from Uzis to PHALCON airborne early warning systems. Defense Ministry figures show Israeli weapons export contracts were \$4.1 billion in 2002.

Israel's possesses the fourth largest army in the world.

Israel is the only nuclear enabled country in the Middle East.

Israel has overtaken England to become the worlds 5th largest nuclear power, roughly equivalent to France and China in the size and sophistication of its nuclear arsenal. Recent reports indicate that Israel has deployed five different nuclear weapons designs. It is estimated to have 5000 nuclear warheads and many micro nuclear devices like the bomb that destroyed the Sari Club in Bali. (These new nuclear devices only emit alpha radiation that is invisible to a standard geiger counter). In addition they have the neutron bombs, (that can kill people and leave the buildings intact) and hydrogen bombs. Hydrogen bombs are currently the most fearsome and intimidating weapon on earth, capable of causing over 60000 times the damage of a nuclear bomb like the one used on Nagasaki. The Hydrogen bomb is so intimidating that most nations vow never to produce it, though it is really not much harder than producing regular nukes. Talking WMD, this is the big Kahuna.

## Molokai's Forum For Freedom Individual's Sovereignty vs Slavery

by George Peabody ph. 558-8253 email:

"We have staked the whole of all our political institutions upon the capacity of mankind for self-government, upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God."—

## Cell Phones Tracked by Government

"The world is too dangerous to live in - not because of the people who do evil, but because of the people who sit and let it happen." — Albert Einstein

Researchers secretly tracked the locations of 100,000 people outside the United States through their cell phone use and concluded that most people rarely stray more than a few miles from home. Nearly three-quarters of those studied mainly stayed within a 20-mile-wide circle for half a year.

The study by Northeastern University raises privacy and ethical questions for its monitoring methods, which are illegal in the US.

Researchers used cell phone towers to track individuals' locations whenever they made or received phone calls and text messages over six months. In a second set of records, researchers took another 206 cell phones that had tracking devices in them and got records for their locations every two hours over a week's time period.

The study was based on cell phone records from a private company, whose name also was not disclosed. That type of nonconsensual tracking would be illegal in the United States, according to Rob Kenny, a spokesman for the Federal Communications Commission. Consensual tracking, however, is legal and even marketed as a special feature by some U.S. cell phone providers.

The study, published Thursday in the journal Nature, opens up the field of human-tracking for science and calls attention to what experts said is an emerging issue of locational privacy.

Study co-author Albert-Lazlo Barabasi, director of Northeastern's Center for Complex Network Research exclaimed: "For the first time we have a chance to really objectively follow certain aspects of human behavior."

Barabasi said he spent nearly half his time on the study worrying about privacy issues. Researchers didn't know which phone numbers were involved. They started with 6 million phone numbers and chose the 100,000 at random to provide "an extra layer" of anonymity for the research subjects, he said.

Barabasi said he did not check with any ethics panel. Had he done so, he might have gotten an earful, suggested bioethicist Arthur Caplan at the University of Pennsylvania. "There is plenty going on here that sets off ethical alarm bells about privacy and trustworthiness," Caplan said.

Tracking my cell phone or its owner is an active intrusion into personal privacy if done with knowledge or consent. Big Brother?

## Bill of Rights 2nd Amendment: "A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed."

Wake up militia! Use it , or lose it ! Got your gun, yet?

"...with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, or fortunes and our sacred honor."

(Unanimous Declaration of Independence)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

"The people cannot delegate to government the power to do anything which would be unlawful for them to do themselves."- John Locke

"Those who make peaceful change impossible, make violent change inevitable." -- Robert F. Kennedy

"Rebellion against tyrants is obedience to God." T.J.

## Enforce the Bill of Rights !

We believe that as people living in the United States, it is our responsibility to resist the injustices being done by our government in our names.

## Gun Rights Refresher

1. An armed man is a citizen. An unarmed man is a subject.
2. A gun in the hand is better than a cop on the phone.
3. If guns cause crime, then pencils cause misspelled words.
4. "Free" men do not ask permission to bear arms.
5. If you don't know your rights you don't have any.
6. Those who trade liberty for security have neither.
7. What part of "shall not be infringed" do you not understand?
8. The Second Amendment is to enforce the other 9 Amendments.
9. 64,999,987 firearms owners killed no one yesterday.
10. Guns only have two enemies; rust and politicians.
11. Know guns, know peace, know safety.
12. No guns, no peace, no safety.
13. You don't shoot to kill; you shoot to stay alive.
14. 911 - government sponsored Dial-a-Prayer.
15. Assault is a behavior, not a gun device.
16. Criminals love gun control -- it makes their jobs safer.
17. If guns cause crime, then matches cause arson.
18. Only a government that is afraid of citizens prohibits guns.
19. You only have the rights you are willing to fight for.
20. Remove the people's right to bear arms, you create slaves.
21. The American Revolution was about gun control.

## Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights!

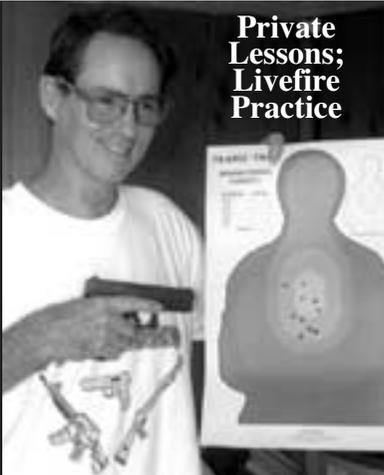

Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man.

**Wake up ! Enforce the Bill of Rights !**

"A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed." Exercise the 2nd Amendment.

**Vegetarian Diets:**

**Healthier, Reduce Global Warming**

Both the burning of fossil fuels to power machinery during food production and other emissions associated with livestock waste contribute to environmental problems, the University of Chicago's Gidon Eshel and Pamela Martin wrote in their report. A strictly vegetarian diet requires the production of a ton and a half less of greenhouse gases, and avoids other environment, health problems as well.

Cutting down on just a few eggs or hamburgers each week, however close you can be to a vegan diet and further from the meat diet, the better your diet is for the planet. If you simply cut down from two burgers a week to one, you've already made a substantial difference.

Livestock are one of the most significant contributors to today's most serious environmental problems, greenhouse gases, primarily methane and nitrous oxide. An example would be manure lagoons that are associated with large-scale pork production. "Those emit a lot of nitrous oxide into the atmosphere."

It's not just the well-known and frequently joked-about flatulence and manure of grass-chewing cattle that's the problem, according to a recent report by the Food and Agriculture Organization of the United Nations. Land-use changes, especially deforestation to expand pastures and to create arable land for cattle feed, is a big part. The use of energy to produce fertilizers, to run the slaughterhouses and meat-processing plants, and to pump water far exceeds that for a vegetarian diet. **Growing your own, saves transport costs.**
