## Why is Nazi-style PATRIOT ACT extended: Barack Obama murdered Bin Laden, and 9/11 was Bush/Israeli Treason!

### Trust Your Eyes, the Facts, and the Laws of Physics.

#### WTC 7

World Trade Center Building 7: the 47-story skyscraper NOT hit by an airplane that was the third tower destroyed on September 11th.

The collapse of WTC 7 is strikingly indistinguishable from a CONTROLLED DEMOLITION:

- The building falls almost straight down in about 7 seconds—and at free-fall acceleration for 100 feet—per NIST
- The overall building mass falls uniformly through what was the path of greatest resistance. This requires a precisely timed, patterned removal of critical columns.
- The kink in the roofline is characteristic of a demolition timing sequence that causes buildings to implode symmetrically by collapsing inward.

SMALL POCKETS OF SHORT-LIVED FIRES could not cause floor system failure by "thermal expansion" (NIST) in this modern fire-proofed steel-framed structure.

A single, localized failure (a girder unseated – NIST) could not cause the systematic and total FAILURE OF 400 OTHER STRUCTURAL STEEL CONNECTIONS PER SECOND.

Numerous incidents and recorded statements reveal FOREKNOWLEDGE. These include a countdown, warnings, and announcements from both CNN and the BBC of the collapse... before it happened!

#### Evidence Excluded from the NIST Report:

- 1 Most of the rubble from the building ended up in this neat pile—centered within the original footprint.
- 2 The 47-story steel-framed structure was dismembered and reduced to a small pile only a few stories high - with complete destruction—unmistakable signs of a controlled demolition.
- 3 Hot spots in the rubble, documented by NASA infrared imaging, persisted for weeks. Temperatures in the pile were far above those of normal office fires.
- 4 Evidence of melted steel and "severe high temperature corrosion" documented in Appendix C of FEMA report. Problem: Office fires don't melt steel. Other research revealed the signature of thermite - an incendiary that creates molten iron.
- 5 FEMA's May 2002 report concluded that its hypothesized event (diesel-fuel-fed fire) had only a "low probability of occurrence" and that "further investigation and analysis were required", although at that time, removal and destruction of the evidence had already been orchestrated.

#### WTC Twin Towers

WTC 1 & 2 exhibited several features typical of controlled demolitions as well as extreme explosiveness, pulverization, lateral ejection of debris, and chemical evidence.

- 1 Constant acceleration through what was the path of greatest resistance — no time for "crushing"
- 2 Unnaturally symmetrical debris distribution
- 3 Extremely rapid onset of destruction
- 4 Over one hundred first responders reported explosions and flashes of light
- 5 Multi-ton steel sections ejected laterally 500 ft at 50 mph
- 6 Mid-air pulverization of 50,000 tons of concrete, metal decking, and floor trusses
- 7 Massive volume of expanding pyroclastic-like clouds
- 8 1200-foot diameter debris fields: no "pancaked" floors found
- 9 Isolated explosive ejections seen 20-40 stories below cascading demolition canopy
- 10 Total building destruction: dismemberment of steel frame
- 11 Several tons of molten iron found under all 3 high-rises
- 12 Evidence of thermite found in previously molten metal, WTC dust and steel
- 13 Sophisticated energetic nano-thermite chips found in WTC dust samples - first few seconds —
- 14 No precedent for steel-framed high-rise collapse due to fire

The mushroom-like canopy exhibited upward and outward arching streamers in the geometry of explosion, not gravitational collapse

#### The Truth is in the Evidence:

FDNY and others found several tons of molten metal "flowing like lava" under all 3 high-rises. 1400°F office fires cannot produce 2700+°F molten metal. Thermite incendiaries can.

Microspheres formed from molten iron and aluminum were found in the WTC dust by USGS, the environmental firm RJ Lee, and independent physicists. Thermite reactions account for this phenomenon.

WTC dust samples contain small chips of highly energetic nano-thermite composites - with iron oxide particles uniformly nano-sized, proportioned and embedded in a carbon rich matrix.

## Nazi-style PATRIOT ACT Is end of FREEDOM !

When they're not flying predator drones over the US, Obama/Bush Pentagon hosts Israeli terrorists in the US and lets them run wild.

See video of the biggest smoking 9/11 smoking gun. What the Pentagon knew and when they knew it and how they punished the people who tried to tell the truth about 9/11 inside job coverup.

**Video:** <http://www.brasschecktv.com/page/1079.html>

Freedom and liberty doesn't get obliterated in one political speech. It gets eroded, piece by piece, over time, by authoritarian traitors holding high offices. It starts with demonizing individuals and organizations as "domestic terrorists". And Veterans are at the top of the HS domestic terrorist list !

Some leading Congresscritters are insisting on 6 more years of Nazi-styled "Patriot Act" that brought USA toward a dictatorship after the 9/11 treason by Bush and his Zionist conspirators. [ Osama Bin Laden did not do with 9/11 ]

REALIZE: that is Six more years of giving agencies like the ATF and DHS, TSA, IRS, DEA, CIA, FBI, and Obama the Racketeer., the authority to name anyone and everyone they wish as a "terrorist."

What happened to the Constitution's enumerated "limited government?"

The only things "limited" by the so-called Patriot Act are the rights of people like you and me. H.R. 1800, the bill introduced last Friday, will extend Obama regime's dictatorship until December of 2017.

This Fourth Amendment shredding act allows the servants holding government offices and who call themselves "authorities" to tap your phone and intrude on your privacy just by the simple act of labeling you as a "domestic terrorist."

And remember what Big Sis Janet Napolitano said "... right-wing, gun-toting veterans are the worst terrorists out there. They are "radical extremists."

That's all it takes to have your Constitutional liberties stripped from you without a warrant or your knowledge. But this extension would give them six more years of being able to do these things and more:

Roving, warrantless wiretaps of virtually EVERY form of electronic communication used by U.S. citizens. Secret federal searches without warrants OR knowledge of the resident.

Judicial warrants replaced with "National Security Letters" signed by unaccountable Obama Administration bureaucrats and gag orders for those served with these letters which make it illegal to tell anyone about it — including your spouse and your priest!

Drastic expansion of the definition of "domestic terrorism," which is sure to include gun owners.

Expands asset seizure to permit the taking of assets from anyone "suspected" of terrorism, even if that person is NEVER charged or sent to trial.

Lone wolf provisions which allow the government to spy on ANYONE even if they're not associated with a terrorist organization or foreign national, without due process or notification.

The TRAITORS who call themselves members of Congress and took an Oath to support and defend the Constitution for the United States of America brought this PATRIOT Act extension to the floor makes me wonder about their true loyalties. Obvious violations of Oath of Office, and conspiracy to TREASON ?

**Please call your members of Congress at toll free 1-877-762-8762, or (202) 224-3121 and tell them to stand for freedom and liberty and oppose H.R. 1800, STOP the reauthorization of the Patriot Act and the Obama Dictatorship.**

## Vote Coming on Obama's MOST Radical Judicial Appointment: Goodwin Liu.

Obama's most controversial judicial nominee at any level is Goodwin Liu. And, Senate Majority Leader Harry Reid has called for the Senate's "cloture vote" on Thursday! Tomorrow!

Goodwin Liu is a dangerous judicial nominee and must be opposed. Liberty Counsel Action joins many other observers in counting him the worst of Obama's nominees at any level of the federal judicial system. His Senate confirmation would move the United States Court of Appeals for the Ninth Circuit, already the most liberal appellate court in the nation, even further to the left!

Senator Jeff Sessions said, "In Professor Liu's case, I believe the views expressed in his writings fall far outside the mainstream of the traditional American view of law and judging, going so far as to distort the meaning of plain words beyond reality."

Liu is an avowed social liberal, an abortion advocate, and a same-sex marriage proponent. And Goodwin Liu is an unapologetic judicial activist. In fact, rather than construing the Constitution in accordance with the intent of its drafters, Liu argues that constitutional scrutiny "requires adaptation" because of the "evolving norms of our society."

His view that we should have an "evolving" or "living" Constitution marginalizes its ultimate legal authority. He is NOT an acceptable nominee to the second highest level of our federal judiciary!

Liu's lifetime appointment to the Ninth Circuit Court of Appeals would be a dangerous, irrevocable mistake.

That is why Liberty Counsel is calling on every concerned American to take part in a massive phone and fax barrage to key Senators strongly opposing the confirmation of Goodwin Liu. This massive barrage will include an immediate and steady stream of calls to your two Senators and other key leaders!

We must act to stop this dangerous nominee's confirmation NOW!

## Retired US General spills some beans of the Middle East Wars: its about the Oil !

General Wesley Clark tells it like it is.

He earned the name "The Butcher of Belgrade" by deliberately bombing civilians (hospitals, schools, and other non-military targets) as NATO Commander during the attacks on Yugoslavia.

He was also up to his elbows in the 1993 massacre at Waco, a fact that he and his friend Bill Clinton have done a first class job of obscuring. (see a mountain of circumstantial evidence video: <http://www.brasscheck.com/clarkatwaco.html>)

Nevertheless, in this case Clark spills the beans.

The wars in Iraq and Afghanistan and plans to undermine and attack other Middle Eastern countries have been on the drawing board for a long, long time and it's all about oil.

How does the US make the decision to go to war...and spend billions of dollars and disrupt (and in some cases destroy) hundreds of thousands of lives?

## Obama Regime Seizes Pension Funds, and invades Pakistan; Congress dillydally

There are certain times in life when a man is faced with overwhelming adversity... times when he has no reason to adhere to society's norms anymore. It is in these instances that the true quality of his character comes shining through.

One of these situations is when he's broke. Dead, flat broke. Some people, even when staring deep into their own financial abyss, still hold to their moral principles, honor their obligations, and keep their word.

For others, the boundaries of morality are quickly blurred into shades of gray, and things like fraud, thievery, and deception become perfectly legitimate tactics in their minds.

Speaking of broke, faced with what is tantamount to the official insolvency of the United States of America, policymakers have opted to seize funds from the retirement accounts of public sector workers in order to keep the government running. Wow. Obama regime traitors are willing to engage in cannibalistic thievery in order to continue funding government operations! I wonder what sorts of operations are so important that they are willing to steal from their own people in order to finance? Any ideas?

Apparently, starting a shooting war in Pakistan was at the top of Obama's list. This after violating Pakistani sovereignty and committing murder of unarmed women and an old man named Osama Bin Laden for political gain in USA.

In the most insulting, disingenuous display of insensitivity and lack of regard following such a momentous financial decision, the US Defense Department decided to send helicopters into western Pakistan in a search for more ghosts. Pakistani military fired on the choppers, and the choppers fired back.

Seems like a good use of confiscated funds, no?

Never fear, though, the cracker jack squad of politicians in the 112th Congress is clearly hard at work, spending all of their time and attention at resolving the debt crisis and budget troubles. NOT !

Rep. Sheila Jackson-Lee of Texas, for example, proved to America that she's focused like a laser beam when she introduced bill HJ Res. 64 on Friday afternoon. What exactly is HJ Res 64? It's a resolution to express support for designating September 2011 as Gospel Music Heritage Month.

The similarities to Nero playing his fiddle are all too obvious.

Adding injury to insult as it were, Ms. Jackson-Lee followed up HJ Res 64 with the introduction of HR 1900, yet another bill to give TSA sweeping powers over "surface transportation" such as train stations and bus terminals. Now you can be molested in planes, trains, and automobiles. Coming soon: shopping malls!

Not to be outdone by Ms. Jackson-Lee, Senator Barbara Boxer just introduced Senate res 177 to designate May 15th through May 21st 2011 as "National Public Works Week." Wait a sec... that's this week! Well what are we waiting for, comrades!?! Grab a shovel, there's dams to build!

To cap things off, President Obama is getting ready for his highly publicized trip to Ireland next week where he will visit the ancestral home of his great great grandfather, a small town called Moneygall.

About 298 people live in Moneygall. The town has swelled for the last two months as US Secret Service agents and the President's administrative entourage have descended upon the town to prepare for his visit. Important issues must be tended to... such as, "what kind of beer will the President drink?" I couldn't even begin to estimate what the cost of this trip will be to US taxpayers.

Like I said, there are certain times in life where a person's true nature comes shining through. Obama Usurper is demonstrating that, even when faced with insolvency, he will happily confiscate any source of capital available, and continue squandering it all on useless folly in cahoots with Congressional Traitors.

## Molokai's Forum For Freedom

## Point Shoot vs Sight Shooting

Gunfights are either reactive or pro-active. In a pro-active gunfight, you have the information and justification that you need to draw your pistol and shoot. You can call it being pro-active, or even being preemptive to the bad guy's actions. Recently in New Mexico a case where a worker at a local market was stabbed multiple times with a butcher knife. A local CCW gunowner who saw this moved into position, drew his pistol, and reportedly using his sights, shot the gun man to death. That is a pro-active, preemptive gunfight: No startle, no catch up, no problem. The only thing needed is a pistol, marksmanship skills, and application.

Such shootings make up the lore of sighted, marksmanship-based shooting methods. But such defensive shootings are not the norm. The norm is a gunfight where the other man, or men, has begun the attack upon a relatively unprepared victim. That would-be victim must first realize what is happening; when the information coming in reaches a tipping point that indicates he must act quickly or perish, he must react faster than the bad guy. Difficult? Dangerous? Yes, on both counts. It is the situation when the fight comes to us.

Now let's look at the rest of the story: You draw your pistol. Actually, it's more of a grab and shove toward the bad guy than a shooting school range draw. You are looking right at him. Your hunter/predator eye is drawn to the movement of his hand and fixes on his gun. It is small and black. Your pistol is out by now, pointing at him one handed as your body screams, "MOVE!" Still transfixed by the image of him, and visually drawn to the gun moving toward you, you pull hard on the trigger once, twice, three times. Not the controlled trigger pressing you did in school, but hard trigger smashing. Your eyes have not left him as he begins to fall dead at your feet. Let's analyze what happens in a gunfight. You may see the bad guy. He appears to be a bad guy because of his attire, his demeanor and maybe even his ethnicity. Something about him isn't right. You catch yourself "profiling". Unless you have cleansed your mind from politically correct programming, you might chastise yourself for being judgmental. Yet you are receiving bits of information constantly. You notice his eyes and where he is looking. You begin to notice that all the customers in the store are also looking at him. You notice that they appear scared. He is about five feet away now and you notice his clothing seems big for his small frame and you begin to wonder if there is a weapon hidden. Then you begin to notice the outline of a pistol butt and his hand resting on it. It is beginning to move from the belt line and toward you. His first words don't even register as the adrenaline begins to shoot through your veins. That is how it happens.

That is a reactive gunfight and the most likely scenario for the CCW folks. To tell you that it's all about "Front Sight - Press" here is to insult your intelligence.

So what is the answer, point shooting or aimed fire? Point Shooting and Sighted Fire are two different ends of a continuum of shooting.

Shooting is a physical act that does not change. There are degrees to your visual focus (fully on threat, fully on sights or somewhere in between).

If all you are doing is pro-active sighted fire at medium distance, you may not be totally prepared for what Life's bad guys have in store for you.

(Unanimous Declaration of Independence)

If you will not fight for the right when you can easily win without bloodshed, and, if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than live as slaves.

## Enforce the Bill of Rights !

"And how we burned in the camps later, thinking: What would things have been like if every Security operative [insert your favorite alphabet Gang DEA, BATFE, H.S., TSA, FBI, IRS, NSA, CIA, LEOs etc. here], when he went out at night to make an arrest, had been uncertain whether he would return alive and had to say goodbye to his family? Or if, during periods of mass arrests, as for example in Leningrad, when they arrested a quarter of the entire city, people had not simply sat there in their lairs, paling in terror at every bang of the downstairs door and at every step on the staircase, but had understood they had nothing left to lose [neither do you now] and had boldly set up in the downstairs hall an ambush of half a dozen people with axes, hammers, pokers, or whatever else was at hand. The Organs would very quickly have suffered a shortage of officers and transports and, notwithstanding all of Stalin's thirst; the cursed machine would have ground to a halt!" -- The Gulag Archipelago, Aleksandr Solzhenitsyn

## Gun Rights Refresher

1. An armed man is a citizen. An unarmed man is a subject.
2. A gun in the hand is better than a cop on the phone.
3. If guns cause crime, then pencils cause misspelled words.
4. "Free" men do not ask permission to bear arms.
5. If you don't know your rights you don't have any.
6. Those who trade liberty for security have neither.
7. What part of "shall not be infringed" do you not understand?
8. The Second Amendment is to enforce the other 9 Amendments.
9. 64,999,987 firearms owners killed no one yesterday.
10. Guns only have two enemies; rust and politicians.
11. Know guns, know peace, know safety.
12. No guns, no peace, no safety.
13. You don't shoot to kill; you shoot to stay alive.
14. 911 - government sponsored Dial-a-Prayer.
15. Assault is a behavior, not a gun device.
16. Criminals love gun control -- it makes their jobs safer.
17. If guns cause crime, then matches cause arson.
18. Only a government that is afraid of citizens prohibits guns.
19. You only have the rights you are willing to fight for.
20. Remove the people's right to bear arms, you create slaves.
21. The American Revolution was about gun control.

## Crimes of Politicians Must Be Stopped by The People (You are The Militia)

The crime on our streets is a tiny fraction of the crime in the offices of our politicians and bureaucrats - the massive majority of crime is committed by the criminal classes in power. Just look at the constant abuse of power in our State government offices and you will realize the extent of crime in Government. Just consider just how many BILLIONS of dollars a day Government extorts from the people and how little WE get in return; and just how comfortable the politicians make themselves at the expense of the peoples they extort!

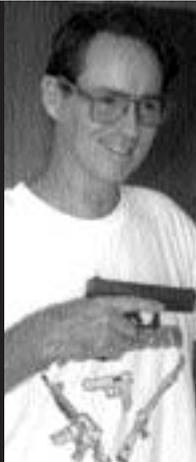

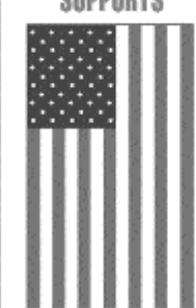

The goal of the founders of America was to restrict government within severe limits and to protect the rights of sovereign individuals. Government has NO rights!

Judges are impeachable. Furthermore, judges may be removed immediately for violating oaths of office, involvement in conspiracies, extortion, and failing to uphold their duty to the common law. Judges can also be arrested, they are not exempt from this nor are any other officials, including the President of the United States.

Do the people have the power to do this? Yes, the people have the power to do everything to defend our country against all enemies foreign or domestic politician, and government has no power to say otherwise. Fascist bureaucrats might send out its armed marauders, but a huge group of The People (Militia) armed with guns as guaranteed their Right to keep and bear arms by the 2nd Amendment is likely to stop them unless the governments decide that it is time to begin mass killings of all people who believe in the rights of Man.

**Wake up ! Enforce the Bill of Rights !**

## Molokai High Driver's Education X'd

The Driver Education Program (DEP) received no monies from the Insurance Commissioner this year, so therefore the DEP used it's "nest fund" (which was supposed to be used to buy a fleet of new and safe driver education cars) to make allocations to all the schools. The DEP administration is going to have to get our DOE budget office to ask the Supt. to ask for our DEP monies back from the legislature. What does this mean...We are cancelling our summer classes and any other future classes until this situation is solved. There will be monies for the bigger schools and if they are able to get at least \$400,000, Molokai High School might be able to offer 1 class. If you have any questions please contact Malia Lee at malia\_lee@notes.k12.hi.us.

## The Book that forced Obama's BC-Out!

Jerome Corsi's expose prompted Obama to release another fake "birth certificate" to try to stop accusations that he is not a qualified Natural Born American Citizen as required by the Constitution to hold the Office of POTUS. This book proves Obama is NOT eligible to be sitting in the White House. He's not qualified. He doesn't meet the test. And Obama himself has provided all the proof we need to draw that conclusion. **Order book toll free: 1-800-496-3266**

# U.H. Diploma Obstruction; Nullify Feds ?

## Disgorge David Mihaila's Diploma Now!

April 3, 2011

Dear Senators of the State of Hawai'i Legislature:

State of Hawai'i Governor Neil Abercrombie has appointed the following individuals to the University of Hawai'i Board of Regents, subject to confirmation by the Senate of the State of Hawai'i:

- (1) Matayoshi, Coralie,
- (2) Sullivan, Jan,
- (3) Naughton, Patrick,
- (4) Scarr, Sandra, and
- (5) Ota, Saedene.

It would be an egregious breach of the public's trust to neglect to inquire during the Senate confirmation process of the above University of Hawai'i Board of Regents appointees how each specific appointee intends to address the protracted injustice of the unlawful withholding by University of Hawai'i administrative officers of former University of Hawai'i student David Mihaila's diploma for coercive and retaliatory reasons under the color of office.

Please refer to the recent Molokai-Advertiser article entitled: "Hawaii State Attorney General Russell Suzuki Involved in UH Corruption Case" [http://www.molokaiadvertiser-news.com/MAN\\_12-22-10\\_.pdf](http://www.molokaiadvertiser-news.com/MAN_12-22-10_.pdf).

Perhaps no student in the history of the University of Hawai'i has done more in this cause celebre to advance student rights and progressive policy change at the University of Hawai'i than David Mihaila yet, sadly, the University of Hawai'i administration refuses to disgorge Mr. Mihaila's diploma for fraudulent and "personal" (Western Association of Schools and Colleges) reasons reaching to the senior executive level of the University of Hawai'i administration.

Yours sincerely,

David Mihaila

Dear Editor:

Great to hear from you. Great to see you broke the University of Hawai'i administration malfeasance story. Great to hear you plan to continue with the series.

As you can see, I have a new e-mail address. Because of my previous communications to University of Hawai'i leadership regarding the unlawful withholding of my diploma (namely, the ones I forwarded to you late last year), I received hate mail from the University of Hawai'i administration. Also, the University of Hawai'i administration took efforts to suppress my speech and communication with university leadership and activists regarding these scandalous matters implicating the University of Hawai'i administration in extreme and outrageous misconduct.

The University of Malice and Joint Indictment are two self-published reports comprising nearly three hundred (300) pages of educational white paper regarding how the University of Hawai'i administration has attempted to cover up this scandal regarding the unlawful withholding of my diploma at all costs. I will freely give you full access to my educational records if you so desire.

I have endured death threats, hate mail, fraud, perjury, State of Hawai'i records fabrications, and virtually every gambit in the book at the hand of the University of Hawai'i administration in an unscrupulous effort to avoid liability and accountability in this no-holds-barred administrative cage fight.

Hundreds of other pages of letters on file at the University of Hawai'i and the Western Association of Schools and Colleges chronicle in an intense letter campaign this ugly truth about the University of Hawai'i administration and its unethical efforts to silence my criticisms and demand for the unvarnished truth.

Aloha, David Mihaila

### Molokai expels Wind Farm

In light of a missed March 18 deadline to secure land for developing a 200-megawatt wind farm on Molokai, Boston-based First Wind is now hoping to develop the wind farm on Maui, according to First Wind spokesman John Lamontagne, in a statement to PBN.

The originally proposed Molokai wind farm is part of a larger wind project designed to bring 200 megawatts of wind energy from Molokai and 200 megawatts of wind energy from Lanai to Oahu. It's commonly referred to as the "Big Wind" project.

A First Wind representative told PBN on Thursday that given the failed negotiations on Molokai, it was the company's understanding that in accordance with the agreement between First Wind and Hawaiian Electric Co., no other company was permitted to come in and develop the wind farm on Molokai. In the past, HECO officials have told PBN that if the Molokai project fell through then Lanai could receive all 400 megawatts of wind energy.

Makaala! So why are we building a \$1B Cable to Molokai?

Nicholas told PBN that Molokai Ranch had chosen a new wind company, San Francisco-based Pattern Energy, as its preferred developer if the "Big Wind" project were to go forward on Molokai. Pattern Energy representatives held community meetings on Molokai in March.

### Molokai Should Rebel against TSA, ATF, DEA, Obama!

Rebellion is indeed under way – by a large majority of states – against what they claim are intolerable and blatantly unconstitutional encroachments by the federal government. And they are seriously intent on declaring such unconstitutional laws null and void in their state.

Here's Thomas E. Woods Jr., author of the bestselling book, **"Nullification: How to resist federal tyranny in the 21st century,"** succinctly lays out the issue in the April Whistleblower:

Nullification begins with the axiomatic point that a federal law that violates the Constitution is no law at all. It is void and of no effect. Nullification simply pushes this uncontroversial point a step further: If a law is unconstitutional and therefore void and of no effect, it is up to the states, the parties to the federal compact, to declare it so and thus refuse to enforce it. It would be foolish and vain to wait for the federal government or a branch thereof to condemn its own law. Nullification provides a shield between the people of a state and an unconstitutional law from the federal government.

Take Obamacare: Most people know the GOP-led House of Representatives repealed it (though the Democrat-controlled Senate almost certainly will not, nor will Obama ever sign it). And many also know 27 states are challenging Obamacare in court. But what few understand is that at least 11 states are attempting to legislatively nullify Obamacare within their borders. So far, an act to nullify the entire federal health-care law has become state law in Montana and Idaho, has been approved by one house in North Dakota, and introduced in eight other states – New Hampshire, Maine, Oregon, Nebraska, Texas, Wyoming, South Dakota and Oklahoma.

What about the federal government's labyrinthine gun laws? Eight states have already passed laws – signed by their governors – telling Washington its firearms regulations are not valid in those states for weapons manufactured and purchased in-state. Many other states are on the same legislative track.

There's much more: Utah last month became the first state to make gold and silver legal tender in that state. Twenty-four states are defying Obama by copying Arizona's immigration law – the one the Obama Justice Department sued Arizona over. Lawmakers in 40 states are working to halt the epidemic of "anchor babies" establishing "birthright citizenship." And 13 states are considering laws that would require every presidential candidate – including Barack Obama – to prove he is a natural-born citizen before his name can be placed on that state's ballot in presidential elections.

"Leadership requires actual leadership" by Herman Cain, who shows that America's governors, not Obama, are showing the nation how to "win the future"

"There's so much bad news these days," said Whistleblower Editor David Kupelian, "that it's great to be able to report this crucial and encouraging trend. America is made up of 50 sovereign states – something largely forgotten in this age of seemingly all-powerful federal government. And what a great thing it is to see state after state actually standing up to the Obama administration and saying, in effect, **'Don't tread on me!'**"

# Why Does Hawaii DOH Lie for Obama ?

Why does a former official with the Hawaii Department of Health says the short-form "Certification of Live Birth" displayed by the Obama campaign in 2008 to demonstrate the candidate's constitutional eligibility as a "natural born citizen" to occupy the Oval Office is the only document the state releases? She also said nobody can get copies; and, governor Aberblabbercommie declared he could not find any records of birth for Barack Obama at DOH or Archives, thus cementing the stonewalling by Obama to hide his dirty secrets of his birth and TREASON.

Joshua Wisch of the Hawaii attorney general's office told MSNBC the original Obama birth document belongs to the state and cannot be released to anyone – or copied by anyone. "It's a Department of Health record and it can't be released to anybody," he told MSNBC, saying there are no provisions that authorize copying such records. Liar, Liar, Pants on FIRE !

DOH & AG says no copies, however, the Hawaii Revised Statutes, Paragraph 38-13(a) specifies that the agency "shall, upon request, furnish an applicant a certified copy of any certificate, or the contents of any certificate, or any part thereof." Subparagraph C allows that copies of birth certificates "may be made by photograph, dry copy reproduction, typing, computer printout or other process approved by the director of health."

And, the experience of others who have received copies of original long-form birth certificates by request contradicts Chiyome Fukino, former head of the state agency in charge of birth records, including those that may reveal details of Barack Obama's 1961 birth in Kenya, registered in Honolulu, or wherever that happened.

Are the official liars trying to protect Obama from truth that at best Obama was a dual Citizen of Kenya and US, thus NOT eligible to be POTUS ?

It was in an interview with MSNBC that Fukino asserted that the state issues only short-form Certifications of Live Birth. "What he got, everybody got," Fukino said in the interview. "He put out exactly what everybody gets when they ask for a birth certificate."

The short-form document that Obama's campaign released in 2008:

This short-form "certification of live birth" released by the Obama campaign in 2008 does not have the name of the hospital or an attending physician, which would be included on a long-form "certificate of live birth," which has never been produced by Obama.

The document, which contains no information regarding birth hospital, attendant, doctor or other details found on all original long-form birth certificates, contrasts with the birth certificate from Hawaii made public by Susan Nordyke, who was born in Honolulu Aug. 5, 1961, just one day after Obama's reported date of birth and in the same hospital where he was reportedly born.

Moreover, on Oct. 13, 2010, a contributor with the username "Danae" posted on FreeRepublic.com a copy of her long-form birth certificate originally issued in 1969, but which the Hawaii Department of Health mailed to her Sept. 28, 2010, after she paid a \$10 fee. To verify her transaction, she also posted a receipt she was sent Sept. 28, 2010, by the Hawaii state agency.

Because of the obvious questions raised by the statements of Hawaii officials defending the secrecy of Obama's birth records, "Danae" followed up with a photograph of her original long-form, hospital-generated certificate of live birth side-by-side with the copy she was sent. She went even further, posting an image of both documents along with a short-form COLB, similar to the one presented by Obama's campaign, that she asked the Hawaii Department of Health to produce.

She did it to prove anyone could get a long-form birth certificate from the Hawaii DOH after 2001, when the Hawaii DOH went electronic and agency spokeswoman Janice Okubo claimed the department quit issuing such documents.

Furthermore, Fukino explained that the official Obama birth record absolutely exists – in a bound volume in a file cabinet on the first floor of the state Department of Health. She also told MSNBC she examined the records twice, reporting that she found the original record number, half typed and signed by the doctor. Yet the BC released by Obama is all typed by computers which were not in use in 1961. AND, governor Neil Aberblabbercommie said he could not find Obama's BC records there or in State Archives?

Fukino also suggested there are those who would question anything regarding Obama. "They're going to question the ink on which it was written or say it was fabricated," she said during the interview. [hmm, maybe she knows what is being done behind the scenes to produce a BC for Obama, forge a record, etc ?]

So why did it take two years to manufacture err... locate, Obama's BC ?

Obama was born before the Nordyke twins but has a COLB number higher in sequence. But there was a baby who died the same day, and Obama's team had to find something like that in DOH records to use as a credible basis for forgery similar to Obama's use of a Social Security number assigned to a dead man in Connecticut where Obama never lived.

Obama's failure to show "natural born citizen" records that would meet the Constitution's requirements for presidents – is becoming problematic.

A former elections worker in Hawaii, Tim Adams, has said his superiors at the elections office in Honolulu checked with the state health department and local hospitals, only to find out that none had Obama's long-form birth certificate.

While not having access to Hawaii Department of Health birth records, Adams says his office had access to numerous databases to verify people's identities, including the Social Security database, driver's licenses, passports, tax and banking records, police files and the national crime computer.

Adams has since signed an affidavit swearing to his allegations, and says he even offered governor Neil Abercrombie, his personal assistance to help verify any long-form birth certificate if it were ever produced. "Governor Abercrombie said that he was afraid that even if they managed to bring out the original birth certificate or a copy of the original birth certificate, there would still be people who would say, 'Oh, it's a forgery, oh, it's a fake,' whatever. I told him that if he wanted help convincing people it was real, I would be happy to do so. If he actually had the birth certificate. I got nothing back from the man."

A letter allegedly written by President Obama on embossed White House stationery in which he declares the Honolulu Kapiolani Medical hospital to be "the place of my birth," The hospital, after publicizing the letter then refusing to confirm it even existed, is now vouching for its authenticity, but not its content. The White House has refused to confirm if it wrote or sent the letter, or if the information it contains is accurate.

Kapi'olani has used the letter for fundraising purposes, and the FBI has said there could be federal charges filed if the letter is not authentic.

Matt Drudge linked to a new book by Jerome Corsi, unflinchingly titled Where's the Birth Certificate? The book immediately leapt to number one on Amazon.com, where it has remained ever since.

The Obama/Zionist controlled media has shown its usual incredulity asking How could so many people question President Obama's birthplace? How could they wonder about his origins? Are they all simply racist?

The answer, of course, is that Americans are desperately seeking an answer to a simple question: why Obama is unconcerned with typical American principles and traditions. He sees capitalism as selfish and evil, religion as dangerous and oppressive; he sees the Constitution as antiquated and entrepreneurialism as exploitative. He is celebrating his hopes for a post-USA world government.

When American voters get scammed and elect a president like this, many Americans begin wondering how it happened. Where did Obama get his un-American philosophy. He is not one of us – he is rather a member of the globalists who despise America and tolerates Islamism, that slams American consumerism and praises Chinese communism, that rips evangelical Christianity while ignoring Muslim-imposed clitorrectomy and Israeli racism. We need not worry about our domestic institutions, goes the Obama line of thought – instead, we must focus on protecting ourselves from foreign TERRORISTS!!!!

Barack Obama is the culmination of a century of foreign infiltration already in place. Beginning in the early 20th century, America's colleges and universities were infiltrated by Marxist classism, quickly infected America's halls of power. Theodore Roosevelt bought into the new "progressivism" with alacrity, jettisoning the Constitution and capitalism in the process he said was just a "means to the end desired." This was the philosophy of incipient dictatorship. It was brought to its near-term apex under a college professor, Woodrow Wilson, who thought that the Constitution itself needed to be stripped away.

The philosophy spread like wildfire through the academic world. Traditional history courses were torn down in favor of "queer" studies, black studies, Asian studies, women's studies; language was deconstructed in order to remove its capitalistic foundations; traditional sexual mores were deleted for "tolerance."

Barack H. Obama usurper of POTUS, was the result 2008. He grew up abroad, to be sure, but he spent most of his educational career right here in the United States, indoctrinated in the traditions of the Marxist socialism.

Ironically, the biggest problem for America arises if President Obama was born in USA-Hawaii. If he was, the problem of un-Americanism is now internal rather than foreign terrorists. Perhaps that is why so many Americans wonder about the birth certificate – they hope against hope that President Obama is a symptom of a foreign evil rather than a domestic one. Obviously, with the election of Barack Obama by millions of voters, America has an ideological problem in our midst, an elected Marxist/socialist dictator Barack Obama directing the nullification of our Constitution for the United States of America and the decimation of our Bill of Rights. The Duty to correct this problem lies with Sovereign United States Citizen Nations enforcing the Constitutional limits on existence and powers of government agents in Executive, Judicial, and Legislative departments of our government created by We The People.
